A bid analysis report was submitted to the Council and Bay Cities was the lowest responsive bidder and meets DBE goal at 14.2%, which is set by the State. Councilmember Bates asked if there was any local participation. Mr. Davidson replied that because this was a State funded project, the State’s DBE goals superseded the City’s goals. There was only one local subcontractor from the City of Richmond.
The following individuals gave comments: Corky Booze, Dorothy Fox, Rhonda Harris, Kiana Riley, Gary Bell, and Mark Holmes. Councilmember Bates and Griffin stated they will not support the contract. Councilmember Griffin suggested postponing the vote for one or two weeks to ascertain whether Bay Cities would be willing to employ Richmond residents. Mr. Davidson replied that because there is Federal money involved, the City of Richmond’s local business ordinance does not apply to this project. Councilmember Butt stated that the City does not have discretion to require that local businesses are used because it is partly federally funded. If this item does not pass tonight, grant funding will be lost. Councilmember Thurmond asked why the general contractor rejected the lowest bid on the subcontractor without establishing any criteria. Mr. Davidson replied that this information was not required as part of the bid submittal. Furthermore, if this item is not approved tonight, funding will be lost as of March 1, 2006. A proposed ordinance amending Chapter 12.46 of the Richmond Municipal Code, incorporating new standards of the State Mining and Geology Board was presented. Councilmember Butt gave an overview of the matter. A copy of a letter from the Executive Officer of the State Mining and Geology Board, who has reviewed the draft ordinance, was given to the Council. Once the Council adopts the ordinance, the Executive Officer, will take it to the State Mining and Geology Board and expects that they will approve and certify it as an ordinance that conforms to the State law, giving the City of Richmond authority to act as an enforcement agent for both local and State laws involving mining. Mayor Anderson stated that ordinances need to be written by the City Attorney, according to the Brown Act. John Eastman, City Attorney, replied that the ordinance should be reviewed by the Planning Department for a CEQA determination. Furthermore, if the introduction of the ordinance is adopted, it would not be enforceable without the CEQA determination. The Council can direct staff to return with an ordinance and review under CEQA. The following individuals spoke on the matter: Doug Strauss, representing the Bottoms Family Trust, and Brian Peer, Dutra Corporation. Councilmember Butt stated that the quarries that are located in the City of Richmond are the Chevron Quarry and the Canal Boulevard/Pt. Richmond Quarry. The State Mining and Geology Board has notified the City of Richmond since 1998 that the current ordinance was out of compliance with State law and the State was going to take over regulation of the quarries. Councilmember Butt stated that this matter is a health and safety concern and should be a priority and has been corresponding about this with City staff since October 2005. City Manager, Bill Lindsay, stated that notices have been sent to the owners of the two quarries. One of the letters indicates that the Conditional Use Permit has expired and the other does not have a Conditional Use Permit. No response has been received yet. Councilmember Rogers asked what is being violated by a Councilmember writing an ordinance. City Attorney Eastman replied that per the City Charter, Article 4, Section 3 reads: ‘The City Attorney shall prepare all ordinances and contracts whenever required to do so by the Council.
