Mayor and Members of the City Council:

This is the weekly report for the week ending May 16th, 2014.

1. **Meeting Notes**

   The next City Council meeting is a special meeting scheduled for Tuesday, May 20th, 2014, beginning with Closed Session at 5:00PM and followed by a special meeting of the Richmond Housing Authority at 6:15PM, and a regular meeting of the Richmond City Council at 6:30PM.

2. **Oakland A’s Investing in the Richmond Community**

   The Oakland A’s currently lead in the American League West standings, and the Richmond community has yet another reason to hope for their continued success. The Richmond Community Foundation, working with the City of Richmond, submitted a grant proposal to the Energize Your Field program sponsored by the Oakland Athletics (Oakland A’s) and Pacific Gas & Electric (PG&E) in September 2013, for the renovation of the baseball field at Martin Luther King, Jr. (MLK) Park. In April 2014, we learned that the Oakland A’s, along with the Good Tidings Foundation, will undertake this ballfield renovation. Renovations and work has already begun on the field!

   The MLK Park ballfield renovation will be done “turn-key” by the Good Tidings Foundation. Work started on May 7th and will continue until the field dedication ceremony on Saturday, May 31st.

   Part of the Good Tidings Foundation mission is to work in partnership with professional sports franchises throughout the Bay Area, leveraging resources to increase access to enriching opportunities by deserving youth. They help design, fund and build projects that are maintained and programmed in perpetuity by school districts, recreation departments, or city governments (click [here](#) to learn more about this organization).

   Please join the City of Richmond, the Richmond Community Foundation, the Oakland A’s, PG&E, Good Tidings, Richmond Little League players, and the
community on Saturday, May 31st at noon on the newly renovated MLK Baseball Field for the field dedication ceremony! An Oakland A’s player will also be in attendance to have a baseball clinic with the little league players. We hope to see you there! Contact LaShonda White in the City Manager’s Office at (510) 620-6828 or at lashonda_white@ci.richmond.ca.us.

3. National Bike Month

May is National Bike Month, and there are exciting activities happening in Richmond throughout the month. Find out more about biking news and activities all through May at www.richmondenvironment.org and http://www.youcanbikethere.org/calendar.

Fourth Annual Richmond Ride of Silence

On Wednesday, May 21st at 5:00PM, please join us for the community-wide Richmond Ride of Silence in front of Richmond City Hall at 450 Civic Center Plaza. The Ride of Silence, part of a worldwide effort, is a slow, quiet ride to honor those who have been seriously hurt or killed while bicycling in Richmond. Held during National Bike Month, the Ride of Silence aims to raise community awareness that cyclists have a legal right to the public roadways, promote bicycle safety and ask that we all share the road.
Team Bike Challenge

If you enjoy saving money, having fun and being healthy on Bike to Work Day, you don't have to stop! Those who want to keep biking through May can join the City of Richmond’s team as a part of the Team Bike Challenge or start your own team! The City has a team that will log its miles each week and compete against other cities and organizations in the East Bay. Those who start their own teams (up to five people) can compete for prizes as they log their miles versus other Contra Costa riders. Learn more and join the team at: www.youcanbikethere.org/tbc.

Friday Lunch Rides

Join us every Friday during May at noon as we bike to beautiful locations across Richmond for lunch. We will meet in front of 450 Civic Center before rolling out! Bring your own lunch or grab something from the Farmers Market next door. Riders of all caliber are welcome!
4. **Officer Bradley A. Moody Memorial Underpass Project Update**

The Bradley A. Moody Memorial Underpass Project involves the construction of a roadway underpass on Marina Bay Parkway between Meeker Avenue and Regatta Boulevard, and is intended to resolve long-standing access limitations to the Marina Bay area caused by frequent train crossings. In early September 2013, Marina Bay Parkway was closed to traffic. This closure is planned to remain in place until early May 2015.

During the week of May 12\textsuperscript{th}, tieback testing and “lockoff” (tensioning and installation of spacers) continued, along with restoration of the Department of Public Health campus. As noted in prior reports, Jetty Drive was closed, and will remain closed for approximately four months. During this time, the Anchorage at Marina Bay development is accessible via the new driveway at Regatta Boulevard.

For the week of May 19\textsuperscript{th}, significant activity is expected at the site, due to roadway excavation to final subgrade depth north of the railroad tracks. Tieback lockoff should be completed for the area south of the railroad tracks, which will allow roadway excavation to final subgrade depth in that area in the coming weeks.

As noted in prior reports, the fourth 24-hour a day weekend closure window has been re-scheduled for the weekend of June 7\textsuperscript{th}. During this closure window, a precast concrete fascia beam will be placed, using a crane positioned on the new bridge. Additionally, the approach slabs will be installed and crews will be placing waterproofing on the bridge. Richmond Pacific Railroad also plans to perform trackway work during this closure window, to minimize disruption of the adjacent communities. Additional information on the work to be completed during this closure window will follow as details are developed.
For additional information and to be added to the project update contact list, please see the project website at www.moodyup.com. You can also follow the project on twitter: @moodyunderpass, or contact the project’s public outreach coordinator Jacqueline Majors at (925) 949-6196.

5. **Chevron Refinery Modernization Project Community Workshop**

On Wednesday, May 28th, the City of Richmond invites you to participate in a Community Workshop to develop recommendations for Chevron’s health and community benefits initiatives in Richmond. The ideas formulated at this meeting will be used to inform the Conditions of Approval for the Chevron Refinery Modernization Project. The workshop will take at the Richmond Civic Center Auditorium from 6:00 PM to 8:00 PM. Doors will open at 5:30 PM with light refreshments.

Please visit www.ChevronModernization.com for more information and to RSVP. Please call (510) 620-6512 for more information.
6. **Improvements to the San Pablo Dam Road Interchange at I-80**

In preparation for future improvements to the San Pablo Dam Road Interchange at I-80, El Portal Drive, near Glenlock Street in the City of San Pablo, will be temporarily closed to allow for the advance relocation of underground utilities.

The roadway closure is anticipated to begin in late May 2014 and continue into August 2014. The closure limits on El Portal Drive will be between Glenlock Street and the entrance ramp to westbound I-80 (towards San Francisco), near the Shell Gas Station. Access to/from Glenlock Street from/to El Portal Drive and all entrance and exit ramps will remain open at all times during construction. The sidewalk on El Portal Drive within the road closure segment will remain open at all times, except as needed, when construction activities require temporary closure for public safety.

Detour signs will be posted to inform drivers of alternative routes to reach their destination during the roadway closure (see map below). Electronic changeable message signs will be placed in strategic locations on city streets to minimize traffic delays and public inconvenience.

The Contra Costa Transportation Authority (CCTA) and project partners, including the cities of San Pablo and Richmond, Contra Costa County, and Caltrans, are making every effort to provide opportunities for project neighbors to stay informed about this construction work. More information about the project can be found at: [http://www.ccta.net/projects/project/38](http://www.ccta.net/projects/project/38).

The Project hotline’s number is (510) 277-0444.

Thank you for your cooperation during this essential work.

Senior Health and Information Fair
The Recreation Department praises everyone's efforts in making the Senior Health and Information Fair the best yet! Participants and vendors wholeheartedly agree and repeatedly expressed that this year was the best so far. Vendors were very happy to leave empty handed and the participants were happy with their bags of goodies. One participant commented she was going to call her doctor to make sure he received the most recent record of her blood pressure.

A higher number of participants and new organizations contributed to the incredibly festive nature. Thanks again to staff, the Commission on Aging, and volunteers, as this couldn't have been accomplished without their help. Also, a HUGE thank you to Peter Defabio, Recreation Coordinator of the Senior Center, for organizing and recruiting for this event. Great job Peter!
