WHEREAS, on January 24, 2017, the Richmond City Council directed staff to initiate the General Plan Amendment process pursuant to Richmond Municipal Code Section 15.04.813.030(B) to study a General Plan Amendment that would amend the General Plan 2030 by changing the land use designation for General Plan Change Area 12 (Northshore) from Low Intensity Business/Light Industrial to a mix of: “Open Space”, “Parks and Recreation”, “Agriculture”, and “Public, Cultural and Institutional”;

WHEREAS, the City needs time to comprehensively study this proposed General Plan Amendment and will study said amendment within a reasonable period of time, as further described below; and

WHEREAS, pursuant to Government Code Section 65350 et seq. and Richmond Municipal Code Article 15.04.813, the General Plan amendment process must include: preparation of a report and recommendation to the Planning Commission from the Planning Director; a recommendation from the Planning Commission with certain recommended findings; and a noticed public hearing with approval, modification, or denial by the City Council; and

WHEREAS, the City of Richmond Planning and Building Services Department plans to conduct at least one public meeting to discuss the proposed General Plan Amendment to Change Area 12 to inform the Planning Director’s report and recommendation; and

WHEREAS, the Planning Director plans to present his report and recommendation to the Planning Commission as soon as reasonably possible, and to take that recommendation to the City Council promptly thereafter; and

WHEREAS, Change Area 12 (Northshore) is currently designated as follows under the General Plan 2030: “The change area is envisioned as a low-intensity hub for office and light industrial businesses that are compatible with surrounding habitat and open space resources. Privately-owned properties located near the Richmond parkway are designated Low Intensity Business/Light Industrial and publicly owned properties located along the shoreline are designated Open Space.”; and

WHEREAS, the proposed land use designations being considered for a General Plan Amendment will protect the coastal resource, preserve that natural resource, and allow for a decrease in greenhouse gas emissions and promote an ecologically sound shoreline; and

WHEREAS, the proposed land use designations being considered for a General Plan Amendment will promote General Plan Policy LU4.1 Richmond Shoreline by minimizing the impacts of development on the shoreline with special attention to intensity, density, and proximity to the water and conserving, protecting and enhancing
the natural and cultural resources along the Richmond Shoreline, as well as General Plan Policy LU4.2 and LU4.3 by preserving open space along the shoreline and protecting natural habitat to ensure biodiversity; and

WHEREAS, there is a current and immediate threat to the public health, safety, and welfare if permits or entitlements for Low Intensity Business/Light Industrial uses are issued, as such permits or entitlements could conflict with amendments to the General Plan that may be adopted as a result of the study of that General Plan Amendment that the City is undertaking; and

WHEREAS, further study is necessary to determine the effects of construction of Low Intensity Business/Light Industrial uses in Change Area 12 on the fragile ecosystem, San Pablo Bay, wetlands, archaeological resources, and the marsh, and also the effects of these natural resources, coastal erosion, and sea level rise on development; and

WHEREAS, due notice of the hearing requesting this temporary moratorium has been given as required by law; and

WHEREAS, for reasons set forth above, this ordinance is declared by the City Council to be necessary, as without this ordinance, the approval of additional subdivisions, use permits, variances, building permits, or the like would result in a current and immediate and direct threat to the health, safety, and welfare of the community, and the recitals above taken together constitute the City Council’s statements of the reasons constituting such necessity and urgency; and

WHEREAS, the adoption of this urgency ordinance will not result in new significant environmental effects or a substantial increase in the severity of previously identified significant environmental effects, beyond those effects analyzed in the Final Environmental Impact Report (EIR) for the new General Plan 2030, which was certified by the City Council on April 24, 2012 (CC Resolution No. 51-12).
