**Richmond Fire Department Responds to the Camp Fire in Butte County**

Richmond Fire Department deployed a four-person crew to the Camp Fire incident in Butte County as part of a regional task force. During their deployment, they have been assigned to various tasks, some of which are listed below.

- Performed structure protection operations to protect properties in locations where the fire was heading.
- First arriving engine at a water source to anchor a long progressive hose lay in the Cherokee area to stop the fire from spreading south towards Oroville.
- Along the way they made a lot of stranded animals very happy by providing food and water along with some much needed TLC.

The department also deployed a firefighter to serve as a Fire Line EMT. He is working under the Berry Creek area, one of the most active divisions of the fire. A Fire Line EMT provides emergency medical aid, as needed, to fire personnel within their division, supporting the personnel of 13 dozers and 35 engine companies.

These five members have been working tirelessly in difficult conditions to help control this catastrophic incident and protect the people and properties that have been spared thus far. They have represented the Richmond Fire Department exceptionally well by being professional and showing great empathy and compassion to the community.

Richmond Tennis Association Wins East Bay Championship!

In October, the Richmond Tennis Association (RTA) Mixed Team won the East Bay Championship by winning two thrilling playoff matches against arch rival teams from Laney College/Alameda and Refugio Park/Hercules. Since 2012, the Richmond Tennis Association has partnered with the Community Services Department to provide tennis lessons to youth and adults on tennis courts in underserved neighborhoods. The organization also donates or provides tennis equipment to program participants.

After finishing the regular season in first place in the league with an 8-2 record, RTA entered the playoff quarter-finals and matched up against perennial powerhouse Laney College/Alameda. The team was led by Captain Jorge Salinas and his wife, Flor, as RTA dominated the opponents by a 6-1, 6-1 score. Our second husband/wife pair, Aranesh and Rita Chandra also cruised to a 6-1, 6-1 win. Our third pair, Johnny Yung and Angie Koontz, also had their game clicking as they won by 6-2, 6-4 scores in front of our cheering cadre of RTA folks. Thus, we had a rare sweep win over Laney as we headed into the playoff finals.
For more information regarding tennis programs offered by the Community Services Department and the Richmond Tennis Association, please contact the Community Services Department at (510) 620-6793 or visit the department’s Recreation Classes and Programs page.

Retirement Announcement

After 27 years of service, Captain Threets retires from the Richmond Police Department. Twenty-five of those years were spent with our department. Captain Threets is a former Marine who began his tour of service with the Richmond Police Department in September of 1993. He was active and productive as a patrol officer, set records that still stand as a narcotic detective, and led various patrol teams and specialty units. His departure is a loss to the Richmond Police Department, as we are losing a highly respected manager with years of experience and knowledge.

The Richmond City Council recently amended the City’s Food Ware Ordinance in May 2018. Additions to the Food Ware Ordinance will be effective December 15, 2018. The amendments are as follows:

- Bans the use, sale, and distribution of plastic straws and stirrers by food providers, retail establishments, and transient lodging establishments. Non-plastic alternative straws and stirrers may only be provided upon request by customer.
- Adds utensils and lids to the list of disposable food ware that must be recyclable or compostable.

The amendment is in addition to the rules below:

- Prohibits the sale or rental of products comprised entirely or primarily of polystyrene foam (Styrofoam) by retail establishments.
- Requires all food providers using any disposable food ware for prepared food to use recyclable or compostable food ware (reusable food ware encouraged). A food provider may charge a "take out fee" to customers to cover the cost difference.

More information about the ordinance can be found at [http://www.ci.richmond.ca.us/1824/Food-Ware-Ordinance](http://www.ci.richmond.ca.us/1824/Food-Ware-Ordinance) or call (510) 620-5407.

9. **Information Technology**

**Cisco Meraki MX100 security appliance:**

Network Manager installed the Cisco Meraki MX100 security appliance on the City’s network. This appliance will be used to replace the legacy Cisco 2900 series router. The legacy setup for the City’s VPN sites is running outdated VPN encryption protocol, which is a low-risk security vulnerability on the network. Changing the VPN setup to the Cisco Meraki MX100 appliance benefits the City in two ways: First, the network will always run the latest firmware that will prevent any security vulnerabilities on the network, and second, the cloud management of the device adds visibility into the VPN networks. This setup is not complete but still in its initial phase. Network Manager will be testing Cisco 1900 series routers and Cisco Meraki MX67C appliances on this VPN network before deploying it to end users.
**Dell computers:**

Network Manager repurposed and reimaged some Dell OptiPlex 790 computers. The goal is to have spare computers that are ready for end-user deployment at any given time. Network Specialist II worked on the Dell OptiPlex 7050 Microcomputers for the Recreation Department. The cloning of the computers is complete. The Network Specialist II is working on configuring the remaining computers for the Recreation Department. Network Manager is also building a new image for the Dell Latitude 7490 laptop computers. This image will be a Windows 10 Pro with the latest build running Microsoft Office 2016 Pro.

**Fiber Optics USA Marking:**

Telephone Specialist and Network Specialist II are marking the City’s fiber optic cables along 5th and Macdonald to Harbor Way and Macdonald. The Telecommunication Company Zayo will be boring the streets along that area. The USA marking of the fiber optic cables underground will prevent the City’s fiber from accidentally being cut by the contractors.

**PD Network:**

Network Manager troubleshooted and resolved the RPD’s MDC problem where the mobile users could not access the new Contra Costa County’s Aries website. Network Manager worked with PD Network Specialist II on the network changes to ensure there were cross-training.

**GIS:**

- Staff attended an urban forestry meeting with the participation of city and Groundwork Richmond staff. A focus of the meeting was how Groundwork Richmond can more effectively capture new tree plantings and transmit that information to the City (City Manager’s Office, Parks and Landscaping).
- Staff attended an EOC meeting focused on mass care and shelter planning.
- Staff performed a spatial analysis and data manipulation task in support of Fire’s updating of its occupancy data.
- In collaboration with Planning, staff completed the updating of the City’s Zoning Districts layer. The revised layer will be published once Council adopts the changes.
- Staff mapped and provided property details regarding a vacant lot that poses a potential fire hazard.
MUNIS
- Applied all available MIU updates to Test, Train and Live systems.
- Assisting Finance staff with fiscal year 2018 close in Munis.

Top Priorities
- Work with Rent Control department to incorporate requirements for the recently passed Rent Board regulations for Rent Adjustments which incorporate new Rent Registration requirements.
- Munis: Upgrade Munis to version 11.3.
- Support desktop hardware and software refresh process for all of city computers.

TRAKiT

**Code Enforcement:**

Earlier this year, Code Enforcement responded to a complaint of blight at a residential property.
