SUBJECT: APPROVAL TO REVISE THE EXISTING CLASSIFICATION OF ASSISTED HOUSING MANAGER (RICHMOND HOUSING AUTHORITY)

BACKGROUND:

The Richmond Housing Authority, under the direction of the City Manager, is addressing operational, performance, and staffing concerns identified by the US Department of Housing and Urban Development. The city is in process the process of hiring an Executive Director and a Finance Manager to oversee the day-to-day operations. The Assisted Housing Manager is also a key position that oversees the Section 8 program. The Section 8 program currently services approximately 2,000 low income residents and 700 landlords and is a significant component of the Richmond Housing Authority. This classification specification was established in 1980 and retitled in 2002, and there have been no revisions since then. Since we are in the midst of restructuring the department, it is an excellent time to bring the specification up-to-date and clarify language.

RECOMMENDATION:

Approve the revisions of the existing classification specifications for Assisted Housing Manager.

ANALYSIS:

The current job specification has outdated terms and does not reflect the full scope of responsibilities. The additional language clarifies the responsibilities and outlines expectations of the position. These minor revisions will have no impact on existing staff. In addition, education and experience requirements have been added to the job specification.
