   - Zoning: RL-2, SINGLE-FAMILY LOW DENSITY RESIDENTIAL DISTRICT
   - Owner: DONALD HAMPTON
   - Applicant: ROBERT AVILLAR
   - Staff Contact: JONELYN WHALES
   - Recommendation: CONDITIONAL APPROVAL

Jonelyn Whales presented the staff report dated March 27, 2019, for a project on a vacant lot where the applicant proposed a contemporary designed residence of 1,800 square feet with a two-car garage and an Accessory Dwelling Unit (ADU) in the rear. The project met all applicable standards for the zoning district. She verified, when asked, that the color palette had been included on the plans on Page A4.

Boardmembers emphasized the DRB’s desire for the continued enforcement of the submittal of material boards and paint swatches to ensure the accuracy of proposed colors; the submittal of 11x17 sized set plans as opposed to full size sets; and the addition of shielding to the 3,000k limit for lights to the staff recommendations.

Boardmember Butt did not see the location of the downspouts although the gutters had been identified on the plans; and expressed concern for the columns on the ADU which appeared to extend beyond the beam.

Boardmember Neel verified the colors and the location of trash enclosures.

Chair Livingston opened the public hearing.

There were no comments from the public.

Chair Livingston closed the public hearing.

3. PLN19-038 NAVARRO NEW MIXED-USE BUILDING
   Description STUDY SESSION TO PROVIDE AND RECEIVE COMMENTS ON THE DESIGN OF A NEW THREE-STORY MIXED-USE BUILDING CONSISTING OF GROUND FLOOR COMMERCIAL AND FOUR RESIDENTIAL LIVING UNITS ON A ±4,800 SQUARE FOOT PARCEL
   Location 761 23RD STREET
   APN 529-180-007
   Zoning CM-3, COMMERCIAL MIXED-USE, COMMERCIAL
   Owner ANA NAVARRO
   Applicant JOSE REYES
   Staff Contact JONELYN WHALES Recommendation: PROVIDE AND RECEIVE COMMENTS

Jonelyn Whales presented the staff report dated March 27, 2019, for a mixed-use project in one of the new commercial zones with a minimum lot size, and explained that the size of the never developed lot would have to be verified and the applicant might have to apply for a variance for a smaller lot size to meet minimum requirements. The proposed commercial project would accommodate a restaurant or grocery store with residential living above, consistent with the General Plan.

Chair Livingston verified with the applicant that a survey of the site had yet to be done and a structural engineer would be secured for the project.

The DRB discussed the project and expressed the following comments, recommendations, and concerns:

Boardmember Neel verified that there would be a driveway on the lot and expressed concern for the safety of vehicles exiting the lot onto 23rd Avenue given the poor visibility of the site. She also referenced other factors that needed to be addressed including drainage, the style of the building, color where pops of color were recommended to tie into the colorful street, with the creation of a visual language of the building and architectural style.

Boardmember Hannah asked about the parking requirement for new construction and the requirement for Americans with Disabilities Act (ADA) regulations. He emphasized the applicant’s need to secure a surveyor, a structural engineer, a civil engineer, and a licensed architect to address the issues related to the commercial and residential parking, lot constraints, complex technical problems, and the need to bring a residential character into the building. He volunteered through staff to help address the areas of concerns and offered a conceptual drawing of what could be done on the site that would fit into the context of the community.

Boardmember Butt liked the layout of the plan and the spaces, and the density on 23rd Street, but noted that while the three-stories were not egregious, suggested the upper two stories might need to be set back, and the architectural language and size of the building would need to be addressed as would the façade and articulation. She also recommended more thought to the interior of the residential units to move, for instance, the bedrooms facing 23rd Avenue to the other side of the building.

Chair Livingston commented that the proposed building did not conform to the standards and requirements of the CM-3 Zoning District. He also suggested there was a trash location issue that would need to be addressed.
Public Comments:

There were no comments from the public.

The Board offered advice to the applicant to be able to create a visually successful project and reiterated the need for a licensed architect to address the issues who would work with staff and potentially with Boardmember Hannah to address those issues.

The following item was held over to a future meeting given that the application was not considered to be complete.
