- **Discussion and Next Steps**

Timeline of RHEP, Healthy Richmond, and CHWE

2005: Richmond's Community Health and Wellness Element (HWE) is first conceived. Once completed, the HWE will become the first standalone element in a CA jurisdiction's General Plan that addresses the relationship between public health and the jurisdiction's social, economic, and physical environments.

2008: City launches HWE implementation planning and pilots in Iron Triangle and Belridge Woods neighborhoods. Focus areas identified: 1) Citywide policy and systems implementation; 2) Neighborhood improvement strategies; 3) Data collection, indicators developments, and measurement of success; and 4) Community engagement.

July 2009: City began planning with project partners to identify needs and opportunities for collaboration. Partners included Contra Costa Health Services, MIG, and PolicyLink.

Oct 2009: First community workshops are held in pilot neighborhoods to get input on potential improvement projects, programs, and services that would address health outcomes.

April/May 2011: The City releases report summarizing recommendations for selection of indicators and implementation of data and info tracking systems.

April 24, 2012: Richmond City Council adopts the 2030 General Plan and the Health and Wellness Element.

City of Richmond Community Health & Wellness Element Implementation (2005-ongoing)

Building Healthy Communities Initiative: Healthy Richmond Project (2010-2020)

Richmond Health Equity Partnership (Feb 2012-Jan 2014)

Spring 2009: CE selects Richmond as BHC project site; convenes community-wide steering committee to manage planning process.

Feb 2011: LISC/Community Housing Development Corp. is chosen to serve as Hub/Host.

Oct 2011: Hub Steering Committee is convened; comprised of 25-members including community residents, CBOs, faith-based orgs, health systems, and public agencies and institutions.

May 2012: HiAP subcommittee is convened; led by City of Richmond and Prof. Jason Corburn.

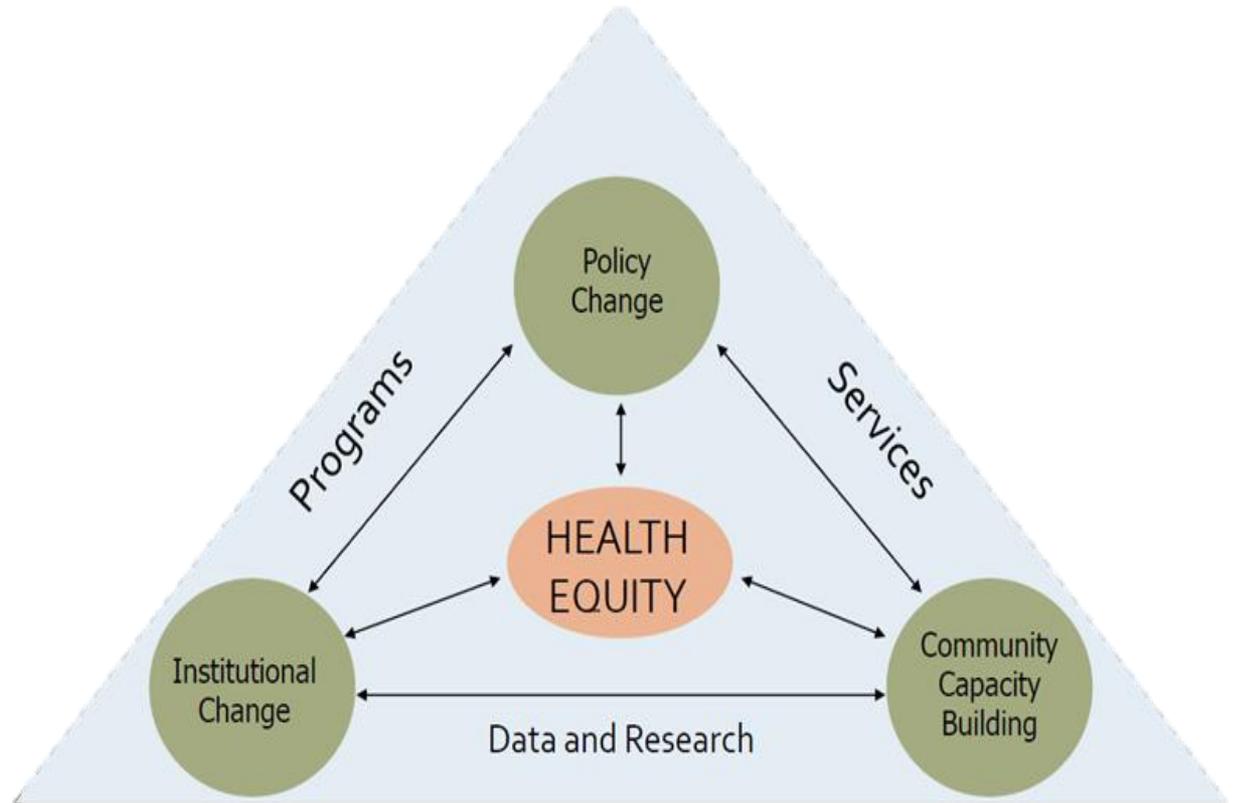

Oct 10, 2012: FSCS resolution approved by WCCUSD Board.

June 2012: Health Equity Data, Training, and Report Card subcommittee is convened; led by CHS.

Sept 2012: FSCS subcommittee is convened; led by WCCUSD.

- July 2009-Nov 2010:** Planning phase. Steering Committee interviews hundreds of local stakeholders to explore health equity issues related to CE's 20 outcomes; creates Logic Model focusing on 4 priorities:
- Families have improved access to a health home that support healthy behaviors.
 - Children and their families are safe from violence.
 - School and neighborhood environments support improved health and healthy behaviors.
 - Community health improvements are linked to economic development.

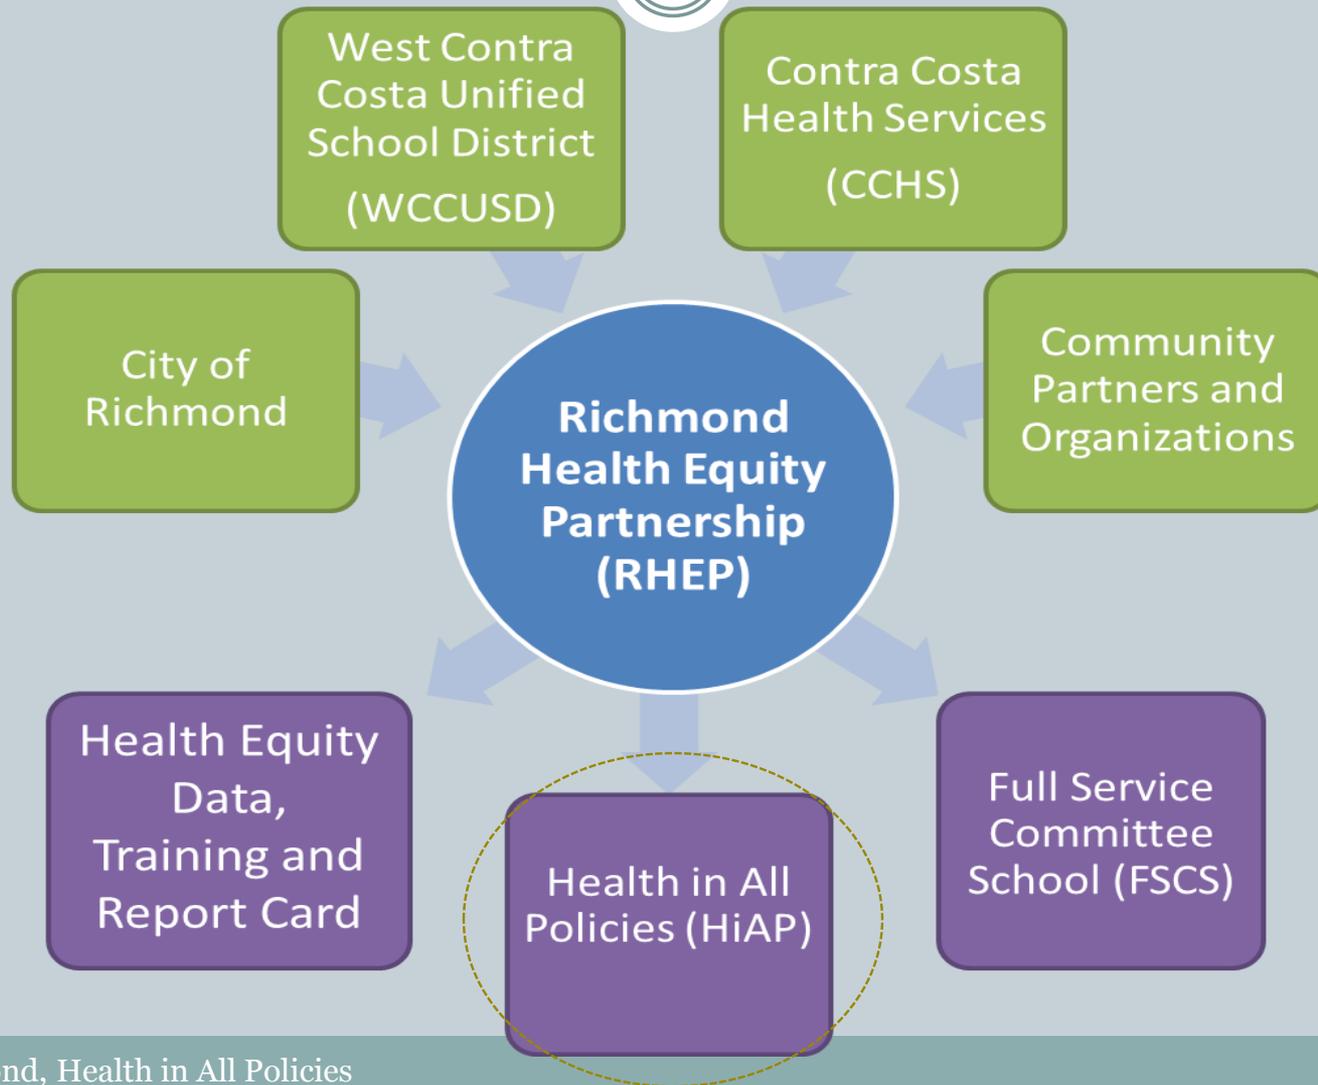

Feb 2012: CE approves RHEP work plan. Objective: Develop collaborative partnership between City of Richmond, Contra Costa Health Services, West Contra Costa Unified School District to advance health equity for children and families in Richmond through the development of a Health in All Policies (HiAP) strategy, Full-Service Community Schools (FSCS) strategy, and a Health Equity Report Card to create a model for replication in other entities and areas of West Contra Costa County.

Model of Change

Richmond Health Equity Partnership (RHEP)

5

Affordable, safe, quality housing
Access to parks and natural resources
Equity in county practices
Access to affordable, healthy, local food
Equitable law and justice system
Community and public safety
Access to safe and efficient transportation
Quality education
Healthy built and natural environments
Family wage jobs and job training
Early childhood development
Access to health and human services
Economic development
Strong, vibrant neighborhoods

DETERMINANTS OF EQUITY

Draft HiAP Strategy Plan

What is Health in All Policies?

7

- **CALIFORNIA DEFINITION**

- HiAP approach recognizes that health and prevention are impacted by policies that are managed by non-health government/non-government entities.
- Many strategies that improve health will also help to meet the policy objectives of other agencies.

- HiAP Task Force Report—Executive Summary pg. 4 and 5

CA Policy Direction

8

- **Focus on Developing Healthy Cities**
- **Strategic Growth Council**
 - Mira Flores Green Belt Project
 - Urban Greening Master Plan
 - Mathieu Alley Greening Project
 - Livable Corridors– Form based Codes
- **State Parks Prop 84**
 - Elm Playlot
 - Greenway Unity Park

Health in All Policies: Richmond

9

- **Health in All Policies is both a process and a goal.**

1. Process: Collaborative approach - changing way City employees and larger community think about health.

2. Goal: Improve health equity by addressing the social determinants of health and integrating health into the decision making process across all departments of the City.

+ Community Health and Wellness Element and Current Health Initiatives

10

How can we best align existing City plans with HiAP

11

- There is no formula or right way to implement HiAP.

What Does It Mean To Have An HiAP Strategy?

- **A healthy economy depends on a healthy population.**
- Health in All Policies is about changing how the City thinks about health and how services are developed, prioritized and delivered.

1. Health Inequities

Health inequities result from an uneven distribution (of resources, services, wealth, etc.) and are unnecessary, unjust, unfair and avoidable. (UC San Francisco, Braveman)

2. Health Disparities

Preventable differences in the presence of disease, health, or access to care across communities

Cumulative Stressors on some Richmond residents

Chronic stress has known physical and mental health impacts, from clogging arteries and heart disease, to overweight & diabetes to chromosome damage and premature aging.

3. Health Equity

Health equity is achieving the highest level of health for all people, and working toward equality in conditions for health, for all groups of people

HEALTH HAPPENS

Did you know
your zip code
predicts how
long and how
well you live?

ZIP: GO

<http://www.healthhappensinca.org/>

Cal Endow Zip Codes

A child born in zip code **94564** will live an average of

81
YEARS.

A child born in zip code **94801** will live an average of

77
YEARS.

A child born in zip code **94806** will live an average of

79
YEARS.

A child born in zip code **94803** will live an average of

79
YEARS.

A child born in zip code **94805** will live an average of

79
YEARS.

A child born in zip code **94708** will live an average of

82
YEARS.

A child born in zip code **94804** will live an average of

79
YEARS.

A child born in zip code **94530** will live an average of

79
YEARS.

Draft HiAP Strategic Plan
