

“We are in the health business”

– Bill Lindsay, Richmond, City Manager

**City of Richmond
Health in All Policies**

City services through the prism of health

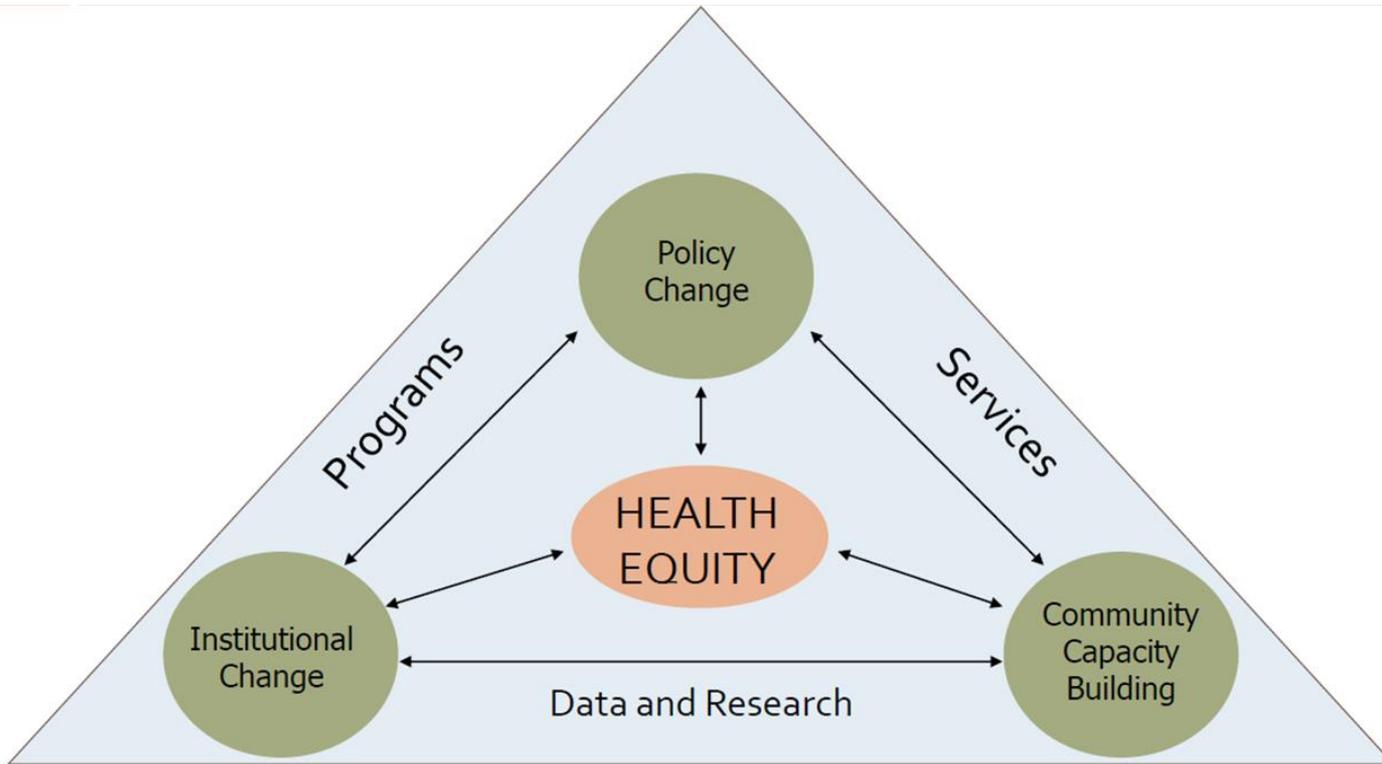

+ Overview

- Background and Context
- How do you define health?
- What are the determinants of health?
- What is Health in All Policies?
- Next Steps and Questions

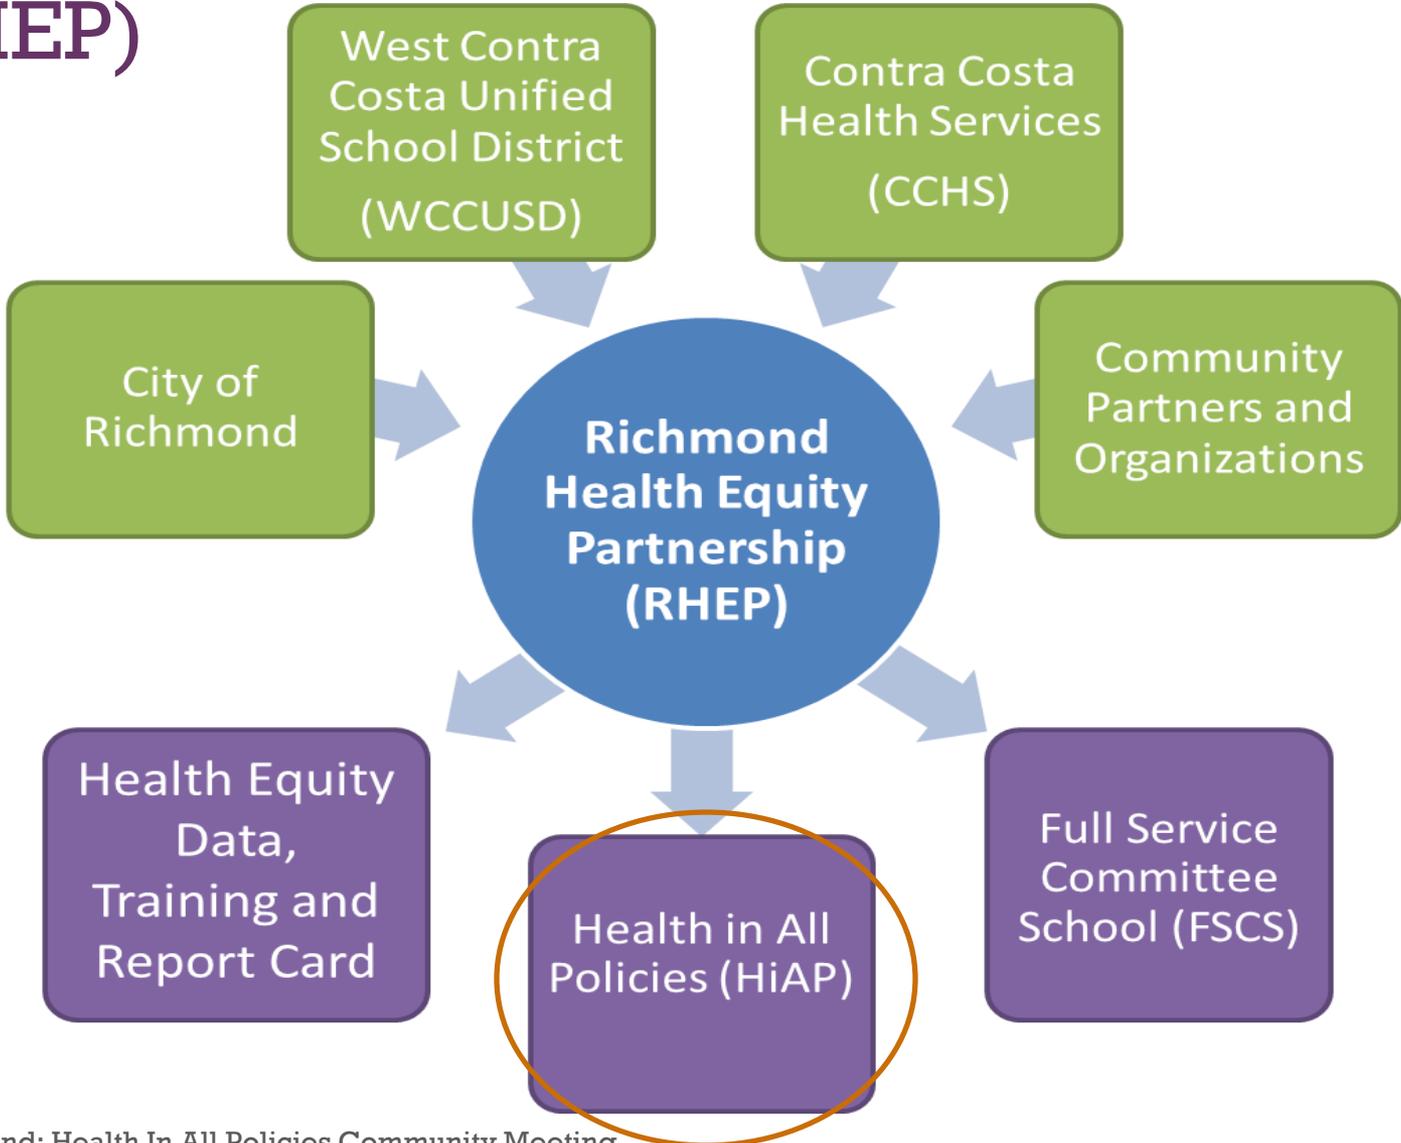

Background and Context

+ Model of change

+ Richmond Health Equity Partnership (RHEP)

How do you define Health?

+ Other definitions of Health...

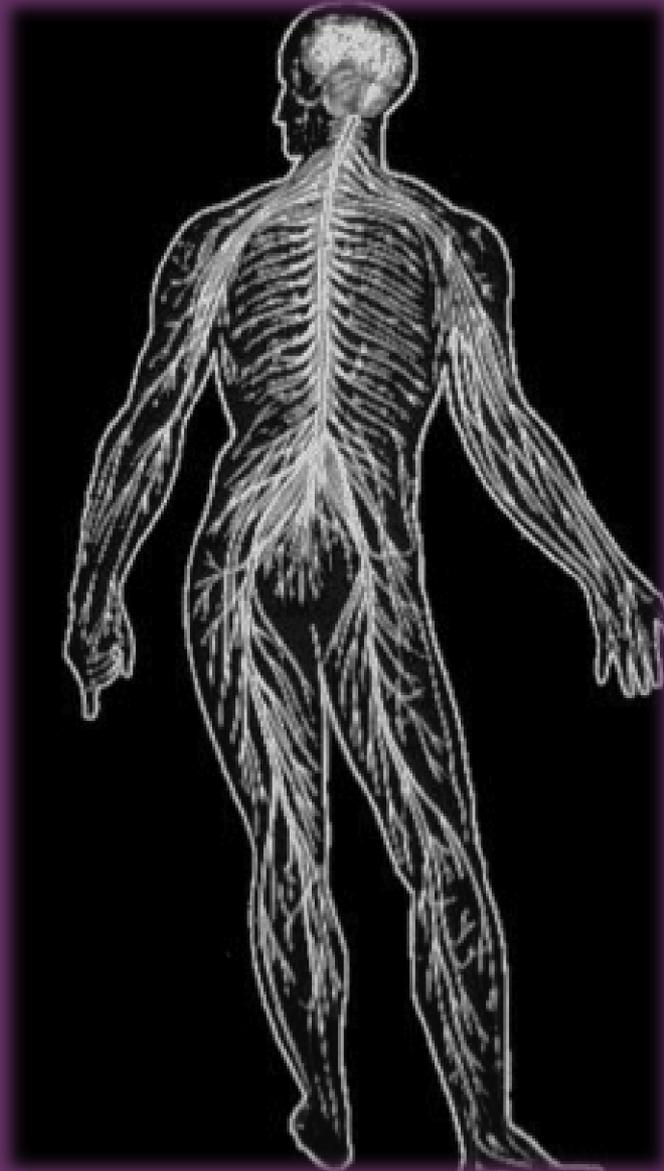

- Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.

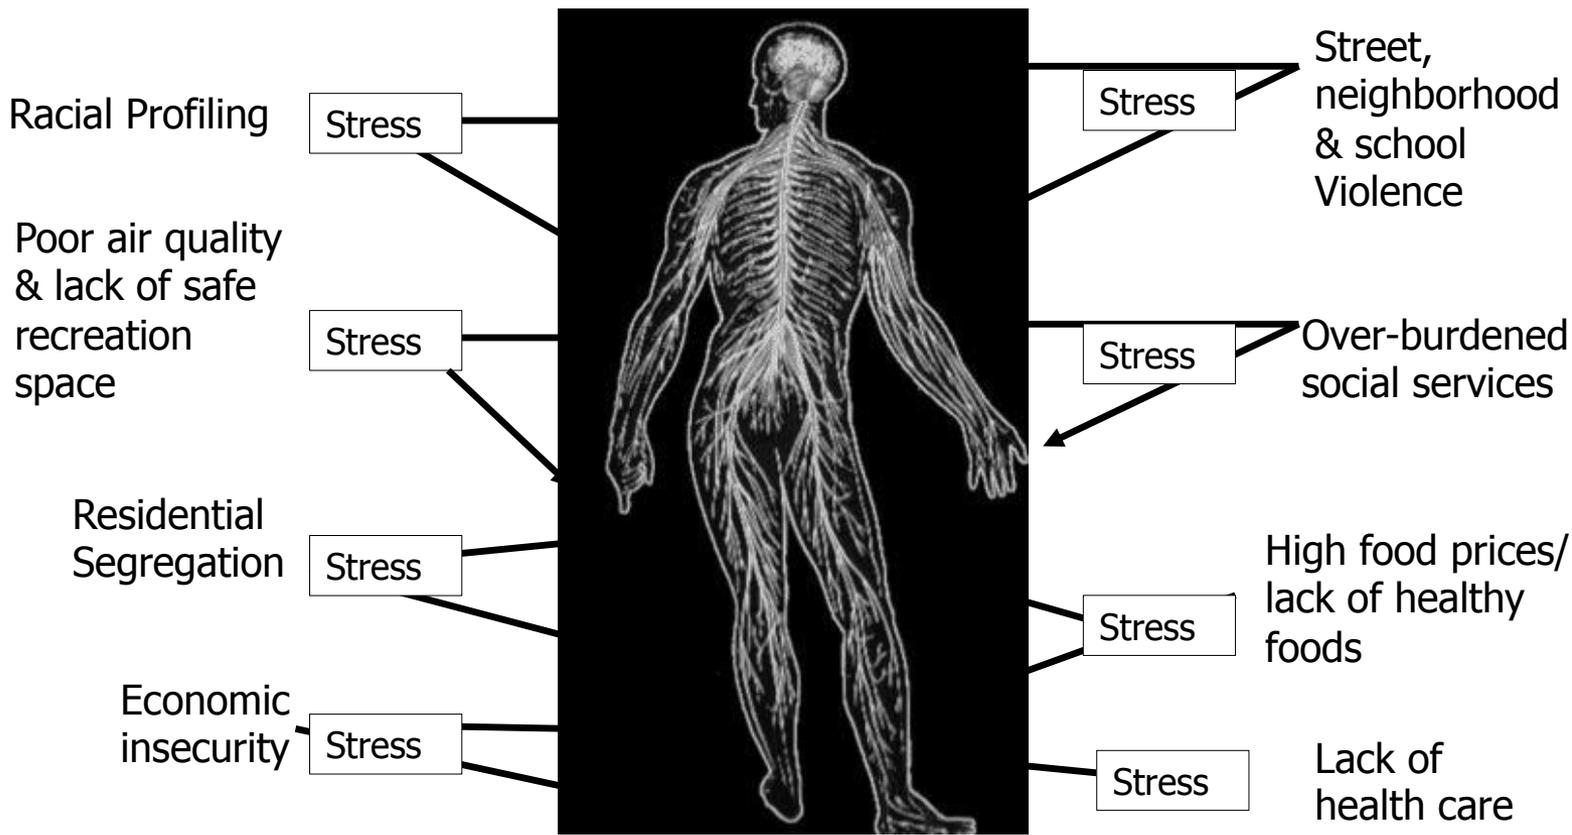

What are the **determinants** of health?

Cumulative Stressors on some Richmond residents

Chronic stress has known physical and mental health impacts, from clogging arteries and heart disease, to overweight & diabetes to chromosome damage and premature aging.

What is Health in All Policies?

What is Health in All Policies?

■ CALIFORNIA DEFINITION

- HiAP approach recognizes that health and prevention are impacted by policies that are managed by non-health government/non-government entities.
- Many strategies that improve health will also help to meet the policy objectives of other agencies.
- HiAP Task Force Report—Executive Summary pg. 4 and 5

+ Health in All Policies: Richmond

■ **Health in All Policies is both a process and a goal.**

1. Process: Collaborative approach - changing way City employees and larger community think about health.

2. Goal: Improve health equity by addressing the social determinants of health and integrating health into the decision making process across all departments of the City.

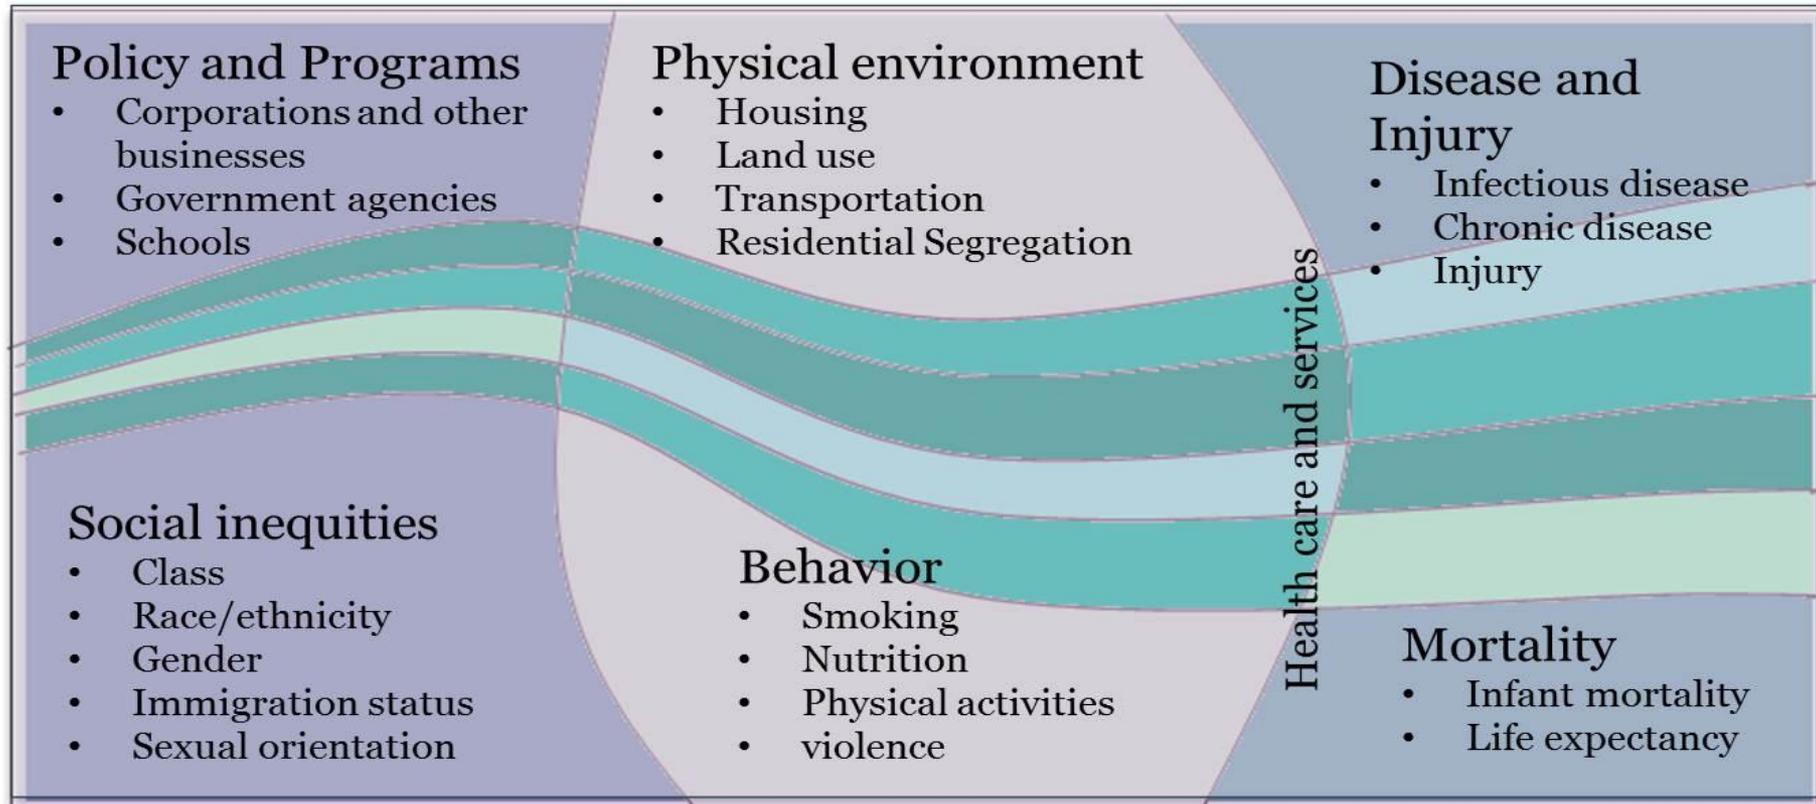

+ Where to Intervene: Upstream v. Downstream

\$\$\$

Upstream

Midstream

Downstream

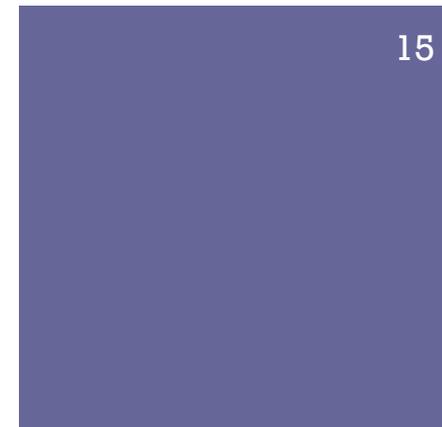

Government, Schools, CBOs --> Parks & Housing -----> Hospitals & Clinics
