COVENANT TO RESTRICT USE OF PROPERTY
ENVIRONMENTAL RESTRICTION
REGATTA BOULEVARD RIGHT-OF-WAY
(NORTHWEST OF PARCEL L)
MARINA BAY REDEVELOPMENT
RICHMOND, CALIFORNIA

This Covenant and Agreement ("Covenant") is made by and between the Richmond Redevelopment Agency (the "Covenantor"), the current owner of a portion of the Regatta Boulevard Right-of-Way (northwest of Parcel L) situated within the Marina Bay Redevelopment project in Richmond, County of Contra Costa, State of California, described in Exhibit "A", attached hereto and incorporated herein by this reference (the "Property"), and the Covenantee, the Department of Toxic Substances Control (the "Department"). Pursuant to Civil Code section 1471(c), the Department has determined that this Covenant is reasonably necessary to protect present or future human health or safety or the environment as a result of the presence on the land of "hazardous materials" as defined in Health and Safety Code ("H&SC") section 25260. The Covenantor and the Department, collectively referred to as the "Parties", hereby agree that the use of the Property be restricted as set forth in this Covenant.
ARTICLE I
STATEMENT OF FACTS

1.01. The Property, encompasses approximately 200 square feet is more particularly described and depicted in Exhibit "A", attached hereto and incorporated herein by this reference. The Property is located in the area now generally bounded on the north and east by the Parcel L and on the west and the south by Parcel I, City of Richmond, County of Contra Costa, State of California. This Property is more specifically described in Exhibit A.

1.02. The Property is being remediated pursuant to a Remedial Action Plan (RAP) pursuant to Chapter 6.8 of Division 20 of the H&SC. Because hazardous substances, as defined in H&SC section 25316, which are also hazardous materials as defined in H&SC section 25260, including petroleum hydrocarbons and lead remain in the soil under the Property, the RAP provided that a deed restriction be required as part of the site remediation. The Department circulated the RAP, which contains a Final Health Risk Assessment, together with a draft Negative Declaration prepared pursuant to the California Environmental Quality Act, Public Resources Code section 21000 et seq., for public review and comment. The RAP and the negative declaration were approved by the Department on May 24, 1993. Remediation included in situ encapsulation of contaminated soil and installation of an asphalt cap. Operation and maintenance of the cap is required pursuant to an Operation and Maintenance Plan incorporated into an Operation and Maintenance Agreement between Richmond Redevelopment Agency and the Department.

1.03. As detailed in the Final Health Risk Assessment as approved by the Department in 1988, all or a portion of the subsurface soils within 5 feet of the surface on the Property contain hazardous substances, as defined in H&SC section 25316, and hazardous materials as defined in H&SC section 25260, which include and petroleum hydrocarbons and lead at significant concentrations. Based on the Final Health Risk Assessment, the Department has determined that the use of the Property as a residence, hospital, school for persons under the age of 21 or day care center would entail an unacceptable cancer risk. The Department has further determined that the Property, as
remediated, and subject to the restrictions of this Covenant, does not present an unacceptable risk to human health or the environment, if limited to commercial and industrial, parks, or open space use.
