City of Richmond YouthWORKS Summer Youth Employment Program

ATTENTION EMPLOYERS

There are many advantages to becoming a worksite which include getting short term projects completed, curbing the temporary staffing costs, and most importantly, training the future of your field.

Last year, over 150 Richmond youth and young adults received an opportunity to work up to 100 hours in many of our local leading industries. Not only did they receive a sense of economic empowerment, they also gained a sense of responsibility that boosted their self-confidence, acquired new skills, and contributed to their families and communities.

BE COME A WORKSITE

Online Worksite Request Forms are now available!
