City of Richmond
Draft Maps Discussion

January 6, 2020
What Is Districting?

- Change from citywide (“At-Large”) elections to by-district elections.
- Currently, every voter citywide votes for the Mayor and for all Council positions, with the top 3 candidates elected to Council every two years.
- After the change, each voter will only vote for the Mayor and, every four years, for the Councilmember from his/her district.
- Each voter will vote less often and for only one Councilmember, but each vote will carry more weight.
- Councilmembers will be selected by, and accountable to, the voters of one district, not to the voters of the entire City.

Note: NDC has researched available state, federal and private data on Laotians in Richmond, and the data are not geographically detailed enough to identify specific heavily-Laotian geographic areas in Richmond. In the absence of official data, NDC and the City encourage community input on areas with geographic concentrations of Laotians.
East of 29th and south of the railroad Latinos are a significant percentage of total population, but a much lower percentage of eligible voters (as measured by Citizen Voting Age Population, or CVAP).
