5. Number of employees: _____

6. Water purchased from EBMUD for immediate past calendar year. (Please convert gallons to cubic feet) List all water accounts by number and amounts of water: (To calculate cubic feet of water, read the following):

1. Add the total amount of gallons on all water bills for the past year.
2. Multiply this by 0.1337
3. Put this number on the line(s) below.
4. Include any notes/explanations as to how values were obtained.

*For example: Total amount of water purchased from East Bay MUD = 3,500,000 gallons
3,500,000 gallons x 0.1337 cubic feet per gallon = 467,950 cubic feet
I would then write 467,950 cubic feet on the line(s) below.*
