Date: Thursday, July 01, 2021 2:53:26 PM

good Evening Mayor Butt, Council members and City Staff, I have a couple of comments for the Record:

1. for the next Agenda, is to have LESA MCINTOSH to provide a presentation on the Proposed water Rates
2. Also to have Rebecca Saltzman to make a presentation on the Design Concept for BART

Sincerely
Cordell

Subject: Open Forum Public Comments for Supplementary Material - July 6, 2021
Date: Tuesday, July 06, 2021 8:48:53 PM

Dear City Clerk,

Can you please include these written comments into the Supplementary Materials for the July 6th, 2021 meeting?

Thank you,
Leisa

Good Evening Mayor, Vice Mayor, Councilmembers and Staff:

My name is Leisa Johnson and I am a Richmond resident and member of the Point Richmond Neighborhood Council and Richmond Neighbors for Safer Communities.

I am respectfully requesting that all of you please focus on ordinances that are critical to the Public Safety needs of all residents and neighborhoods.

Regarding defunding RPD:

- A few short weeks ago, Councilmembers Jimenez and McLaughlin emphatically stated that no additional RPD positions would be eliminated other than the 12 vacant sworn officer positions.
- Last week, however, during the final budget process, they made their approval conditional upon taking away two more RPD positions - the two Community Service Officer positions - and transferring them to an as yet to be determined department, making them SEIU 1021 positions.
- We don't know when or if these positions will be filled, and the conflicts of interest surrounding this do not go unnoticed by the community.
- As I've consistently stated, I do not support your continued defunding of RPD, the elimination of 12 more vacant sworn officer positions and now 2 community service officer positions.
- Chief French aligned the responsibilities of her department counting on these two CSO (Community Service Officer) positions. As such, there will be an as yet further unspecified reduction in services that Chief French will have to determine & then communicate to the Public.
- I respectfully request that the Mayor appoint Neighborhood Council representatives to the Reimagining implementation team to allow for more effective community participation and input.

I am also requesting the Council to focus on a public safety ordinance that will effectively address the impacts that illegal fireworks and sideshows have on our neighbors on a near daily basis. If need be, please work with County and State elected officials to pass

meaningful reform. Specifically:

- **ILLEGAL FIREWORKS**

- The **new CCC ordinance is meaningless.**
 - Here's the County ordinance:
<https://www.contracosta.ca.gov/DocumentCenter/View/71103/Fireworks-Ordinance-No-2021-19-Press-Release-682021>
 - *"A violation of the ordinance is subject to a fine of \$100, a fine of \$200 for a second violation of the ordinance within one year, and a fine of \$500 for each additional violation of the ordinance within one year."*
- The county's \$100 fine is laughable as these folks are willing to pay minuscule fines when they spend thousands of dollars on fireworks.
- If you are going to address this risk appropriately, I believe steep fines (\$10K for initial violation) are needed as well as considerable (100+ hours) community service.
- Right now, RPD can only arrest someone if an officer observes that individual lighting the fuse. As you heard Chief French state, they use lookouts and also block police access so that they can't see who is lighting the fuse.
 - On Sunday, there was a block party with >200 participants that illegally set up their own roadblocks, preventing Public Safety access. Indeed, when a firework-related fire erupted, RPD had to come and spend critical time providing access before RFD could enter and fight the fire.
 - As you all know, response time is critical for fighting any fire and those individuals should all be held accountable for their actions and the risk to Public health & safety they created.
- Legislation also needs to be significantly strengthened to include those who participate, and as Chief French mentioned, to include the ability to prosecute after the fact.

- **ILLEGAL SIDESHOWS**

- San Jose is the first city to make it illegal to promote sideshows on social media.
 - See report here: <https://www.kron4.com/news/bay-area/sideshow-social-media-promoters-to-face-criminal-charges-in-san-jose/>
- Again, I personally think steep fines are necessary if it's going to have any teeth and an impact.
- I also think people who are caught participating in a side show with their car should have their car permanently impounded and their drivers license revoked.
- Again, if the policies and laws don't allow RPD and the DA to do their job effectively, this is only going to get worse.
- It takes tough measures like this for the word to get out and serve a preventative function instead of "after the fact". With insufficient RPD officers on duty, this has signaled to participants that it is OK to come here because they can't be arrested and there is zero accountability.

Thank you.

Respectfully,
Leisa Johnson
21-year Richmond Resident

To whom it may concern,
As a former long time resident of Richmond, I am very concerned about the project being considered for 1,400 upscale townhouses at Point Molate. This area has a fascinating history and the city and region, would be much better served by supporting a regional park.

Since I still live in the Bay Area, I am quite familiar with the existing traffic conditions as one approaches the Richmond-San Rafael Bridge. There are frequently accidents and other problems that cause huge delays to traffic in the area. Having more than a thousand new residents, each unit likely having two or more people, would bring thousands more cars into the already congested area.

I urge you to rethink this plan. It is a beautiful setting and it is understandable that people would like to reside there, but the foreseeable traffic and financial problems should lead the City to instead envision a project that would respect the area's history and create open space for the public to enjoy. Thank you.

Regards,
Susan Alcorn

Subject: Public Comments Agenda Item I-10: Consent Calendar Construction Contract for Cutting & Harbour Way Bikeways
Date: Friday, July 02, 2021 10:21:59 AM
Attachments: [QB-AttB-Project Location Map.pdf](#)

Mayor Butt and City Councilors,

When you meet this Tuesday, please approve consent calendar agenda item I-10 awarding a contract to W.R. Forde to construct bikeways on Cutting & Hoffman Blvds. and Harbour Way South.

This 2-1/4 miles of two-way protected bikeway will make it much safer and more attractive to bicycle to/from the Richmond-SF Ferry Terminal and the Richmond-San Rafael Bridge Trail. The project will implement Key Corridor recommendations of the award-winning [Ferry to Bridge to Greenway Complete Streets Plan](#) you adopted on February 16. It's not every day that the City Council has the opportunity to implement a plan so quickly, rather than have it gather dust on a shelf.

Although not on the shoreline, Harbour Way South and Cutting Blvd. are important parts of the Bay Trail route connecting the Richmond-SF Ferry Terminal and Marina Bay's necklace of shoreline parks with the Ferry Point Loop, Shipyard 3 Trail and the Richmond/San Rafael Bridge Trail as shown on the attached map. Making it more attractive and safer to bicycle on Harbour Way South will help reduce the need to expand automobile parking for the Richmond-San Francisco Ferry Terminal. The bikeway safety improvements on Cutting Blvd. will be very important for access to/from the RSR Bridge where there have been over 143,000 bicycle trips since opening of the trail in November 2019.

Design and Construction is being funded by a variety of state and regional bicycle & pedestrian transportation sources, including grants of \$725,000 from the CA Department of Transportation's Active Transportation Program, \$325,000 from the Metropolitan Transportation Commission and SB1 gasoline tax revenues, as well as funds provided by Simms Metals Management.

Please pass agenda item I-10 by consent. Thank you very much.

Dear Mayor and City Councilmembers,

I am writing in support of the Richmond Bike Share program. This is an important step in transitioning the City to a more equitable, economical and sustainable transportation future. It will support use of Richmond's many parks and trail resources as well as help people connect to the Ferry, BART and other transportation centers in the city. I personally look forward to using the rental Gotcha e-bikes to commute from home to BART.

Please support the Bike Share appropriation and funding agreement with MTC as described in Item I-5 of the agenda.

Thank you!

Subject: Public Comments Agenda item #1-5
Date: Tuesday, July 06, 2021 12:43:27 PM

Hello,

I'm writing to SUPPORT the bike share program.

There is a safety challenge in regards to some cyclists who may go faster than the speed limit (or suggested speed limit) on our trails.

This challenge however, has to do with the users, not being considerate of others, not the bikes themselves.

Just like some pet owners with long leashes may take up the full lane and runners risk tripping on them. It's the responsibility of the humans using the trail to follow guidelines of coexistence. Signage should be clearly posted to increase awareness about rules for all trail users.

The Richmond Bicycle Pedestrian Advisory Committee has created a sub-committee that is currently working on solutions to these challenges and will provide results as soon as they become available.

Best regards,

Subject: Public Comments, Agenda Items J-1 and N-2
Date: Monday, July 05, 2021 11:23:36 PM

City Council,

Please include the following comments at the City Council meeting for July 6, 2021:

Agenda Item #J-1

I agree with this item only under the following conditions — The resolution should require the following for all DACA, TPS, and DED persons:

- 1) Demonstrated proficiency in English language at (circa 1960) high school senior level.
- 2) Passage of a rigorous U.S. Civics and U.S. History exam in English, to include a U.S. high school (circa 1960) proficiency level of 90%.
- 3) Passage of a rigorous test in English of the U.S. Constitution and Amendments, Declaration of Independence, and the Emancipation Proclamation.
- 4) A signed document of assurance that the person vows allegiance to and support of the U.S. Constitution, and has a positive view of the country's culture and history.

If they don't pass, they can try again over the next two years. If they still don't pass, they don't get citizenship and are not allowed to vote in any U.S. election.

Agenda Item #N-2

I am irrevocably opposed to "extending voting rights to undocumented Richmond residents to participate in local elections". There is no legal, constitutional, or rational basis for such an action. No one should vote in any U.S. election unless that person is a legal U.S. citizen. If the person entered the country illegally, they should not be allowed any civic rights whatsoever, and should be deported at once. If an individual is "undocumented", there is by definition no way to determine anything about such a person, let alone voting eligibility. The City Council should not be wasting its time on such an asinine issue, and instead should focus on improving the health and safety of U.S. citizens who already happen to reside and vote in Richmond.

Subject: Item K-1 Public Hearing Comments for District Elections - Please include in supplementary material
Date: Tuesday, July 06, 2021 7:55:36 PM

Dear City Clerk,

Can you please include these written comments into the Supplementary Materials for the July 6th, 2021 meeting?

Thank you,
Leisa

Good Evening Mayor, Vice Mayor, Councilmembers and Staff:

My name is Leisa Johnson and I am a 21-year Richmond resident and member of the Point Richmond Neighborhood Council and Richmond Neighbors for Safer Communities.

I participated in every community meeting and public hearing during the 2019/2020 inaugural districting process.

First and foremost, the Community input seemed to be largely ignored when it came to meeting the specific requirements as reiterated here this evening, including:

- **No racial gerrymandering:**
 - This is exactly how D1 was carved out and yet, ironically, they don't have Latino/Latina representation.
- **Districts should be geographically contiguous:**
 - The current D2 is anything but contiguous and makes uttererly no sense to those in the Point Richmond, Santa Fe, Sheilds Reid and Hilltop neighborhoods
- **Undivided neighborhoods & communities of interest:**
 - All of the current districts appear to violate this requirement.
 - So many of us in the community asked for the shoreline, Hilltop area, and San Pablo corridor to be put in the same district as best possible.
 - The Iron Triangle was also divided.
 - Interestingly, there was a map in the top 4 or 5 that far better captured the community's interest but that's not what we got. Why?
- **Compact:**
 - The current Districts 2 & 4 are anything but compact.

I respectfully request that:

- The electronic map review process be much easier and simpler to use than it was last year as this prevented effective community engagement & participation.
- Community meetings occur this time around again, but most importantly, that their input is heard and respected by the Consultants, City Staff and this Council.

- City Staff more broadly advertise community meetings & public hearings so that community is aware - via newspaper, city website, City Manager report and send email notifications to all neighborhood council presidents for their distribution.

Of critical importance, I don't think Richmond has addressed the discrepancy between our Charter and the guidelines that were sent out to the last year's Candidates.

Our City Clerk mentioned that she thinks our City Charter's residency requirement of one year may not be legally enforceable, but our City Charter should be appropriately amended to clarify any and all ambiguities that have been raised by the Community, and any such amendment would require a vote of the people. Perhaps if this Council decides to put an item on the ballot that lets voters decide whether or not they want to have district elections, this could be addressed at the same election.

Moreover, as I explained to our City Clerk and City Attorney's office last year, **if** a candidate should be disqualified from a district race, for whatever reason, how are the other candidates allowed a fair election process and an appropriate remedy, especially since we don't have rank-choice voting?

And to a point that was asked earlier, if a D1, 5 or 6 Councilmember serves out the remainder of their term through 2024, and they want to run again but their district boundaries changes, how can they run for another a new district since they have to live in that district for a specified period of time prior to running?

Lastly, I request an Ordinance be passed that significantly strengthens much needed regulation regarding proof and length of residency. In our first District election there were three cases of contested residency amongst last year's City Council candidates.

This includes

Thank you.

Respectfully,
Leisa Johnson

Item: L-3. ADOPT a resolution to support the process of developing a Richmond Green-Blue New Deal and Just Transition to 21st Century jobs and DIRECT staff to prepare a request for proposal (RFP) to hire an environmental consultant

On behalf of the Council of Business and Industries (COI) we are submitting these comments for your review. Whereas we support the city recruiting diverse businesses and industries to locate to the City of Richmond, we believe that focusing on climate change and business development can be done with current programs and staff.

This item was previously approved by a majority of the council to earmark \$300,000 in ARPA funding without proper posting on the agenda and without allowing for review or comment by the community PRIOR to the item being approved by council.

The material and Resolution does not recognize current programs that are in place. The City has a climate action plan, greenhouse gas emissions inventory, General Plan, and established mitigation for potential impacts of sea level rise which have been implemented to address these issues; our Planning department has the capability of overseeing the plan, and our Assistant Deputy City Manager oversees economic development in conjunction with the Economic Development Commission.

Our shoreline area is home to many businesses that already have “blue jobs” including boat repairs and boat and ship building, however these, and any new businesses, will be negatively impacted with the implementation of the new business license tax. The city has not recruited any new shoreline businesses and in fact the General Plan has limited industrial zoning along the shoreline.

The Resolution provides a “just transition to 21st century jobs however, it is unclear if these would provide livable wages and benefits. The “30 Great Pivot Projects, Creating Local Green Jobs” focus the public sector jobs on solar retrofits, mass transit, safe bicycling infrastructure, electric charging infrastructure, municipal waste prevention, restoration of nature—some of these are outside the City’s area of responsibility, none of these translate into large number of jobs. And those listed for the private sector are few- focused on solar, recycling, construction and furniture.

Further recommendations in the reports are either already in place such as “opportunities to re-connect people with nature” as we are in process of completing the shoreline bike trails, but some don’t relate to our city-sustainable fisheries and aquaculture.

The article quoted supporting this Resolution doesn’t apply to our city as it condemns industries that are *not* located in Richmond - cruise ship industry, container shipping, industrial fishing fleets, factory farms, oil rigs, and deep-sea mining. It supports protecting and restoring coastal habitats to reduce storm damage which is under the purview of BCDC, State Water Resources Control Board and the Coast Guard. The recommendation for “sustainable aquaculture jobs” may not be applicable given our shoreline abuts a Bay, not the ocean.

Let’s look to our current staff and commissioners that have the expertise and knowledge of our current programs – planning, economic development – further discuss how developing a new “green-blue” economy will impact not only the city but current employees, families, community and businesses.

Subject: Public Comment Agenda Item # M-1--Urge the City Council to adopt and add to Muni Code. Chap. 11.103
Tenant-Anti-Harassment Ordinance
Date: Tuesday, July 06, 2021 11:03:43 AM

Dear City Clerk:

This email is to submit my public comment for Agenda Item # M-1. I urge the City Council to adopt the proposed Tenant Anti-Harassment Ordinance and to add it to Chapter 11.103 to the Richmond Municipal Code.

As a tenant/resident of District 5, within the City of Richmond, I strongly encourage our City Council to adopt the proposed Tenant Anti-Harassment to protect the rights of all tenants within our City. Tenants deserve greater protections from harassment, discrimination, and retaliation by Landlords who regrettably abuse the rights and needs of tenants.

Thank you,
Janis E. Eggleston
Tenant/Resident of the City of Richmond.

From: [Pj Singh](#)
To: [City Clerk Dept User](#)
Subject: Public comments agenda item # N-1
Date: Tuesday, July 06, 2021 3:09:21 PM

Hi,

My name is PJ Singh and I am long time resident of Richmond City. I would like to share my personal story and experience of almost losing a house to fire due to illegal fireworks. It was 9 pm on 4th July, 2020 when my tenant phoned me to come immediately because there was a fire due to someone carrying out fireworks in the neighborhood. When I reached my property to assess the damage, it appeared that the whole block was watching while a few individuals carried on their illegal fireworks show near Visalia Ave & 18th Ave. The reckless individuals had ZERO concern about the property damage, noise, air pollution, trauma to animals, and effect of toxic fumes on little kids and adults who were there.

After meeting with my tenant, I discovered the fire had started when a firecracker landed in the backyard and almost came close to burning down the house. It was fortunate, my tenant quickly contained the fire with and with neighbors' help. My tenant had called 911 but the police and the fire departments were already too busy putting out so many other fires across the city. I am sure my story is experienced by many more people in Richmond who have been equally terrorized thinking fireworks could potentially burn their home.

My tenant had family of 4 including a little baby who were living in the house at the time and if the fire had consumed their home, we would have had 4 more people without the roof that day.

I believe It's time to make it illegal to sell as well as light up fireworks in residential neighborhoods.

Thank you for your work!

Respectfully,

PJ

Hello my name is Leticia Chávez, I am a Richmond resident, a mother and the secretary of the West County Regional Group sponsored by First 5 Contra Costa. The WCRG is a group of parent advocates who work towards creating a healthier, safer and more equitable Richmond for young children and families.

As a parent leader and advocate I along with many other parents have volunteered my free time for years make Richmond an equitable community where our children can thrive.

undocumented Richmond residents are also rightful residents who are a part of the community, who contribute to the labor force and pay taxes. Being undocumented is not a choice. I don't know a single person that likes being undocumented. The system makes it almost impossible for people to become legal citizens.

Not allowing ALL Richmond residents to participate in the electoral process further disenfranchises communities of color who are already a vulnerable population. And it also adds to the lack of representation of people of color in political participation

I believe that looking into allowing undocumented immigrants to vote in the city of Richmond local elections will be a great thing because it will give EVERYONE the right to vote and have a voice on decisions that affect everyday life. Richmond could possibly be the city to make history in California by allowing undocumented immigrants to vote, like some cities in the state of Maryland have done.

Having the right to vote may encourage more people to get involved and work harder to make this city a better, more

inclusive place for our families.

Please explore the possibility of allowing undocumented Richmond residents to vote in local elections.

Thank you for your attention.

Leticia Ch
