

Hon. Mayor and Members of the City Council:

This is the report for the week ending March 25th, 2022.

1. **Meeting Notes**

The next Regular City Council meeting is scheduled for Tuesday , April 5, 2022. Enjoy the next week off!

2. **Coronavirus (COVID-19) Updates**

The following information is an ongoing list of resources and significant updates regarding COVID-19. Please click on the images or visit the hyperlinks below for further information.

Two side-by-side informational cards. The left card has a purple background and features a red location pin icon above the text "Richmond, CA" and "Impact to City Services and Facilities". The right card has a green background and features icons of a green glove, a roll of white paper towels, and a red shopping bag filled with groceries, above the text "Health Information and Community Resources".

An Evening of Poetry and Health

An Evening of Poetry and Resource Awareness will be hosted by Richmond Poet Laureate David Flores and Richmond Teen Services Librarian Angela Cox, in observance of National Poetry Month. This in-person program will be held on Thursday, April 7th in the Council Chambers, 440 Civic Center Plaza, Richmond, CA from 7:00 PM to 9:00 PM

Supervisor John Gioia will be on hand to discuss the economic and pandemic factors that have contributed to the increased health challenges in the Black community, and the entire community. Dr. Desmond Carson will speak to attendees about maintaining physical and mental health, support programs and resources in West Contra Costa.

Spoken word artists Tj Sykes, Donte Clark and CiCi Jevae will perform spoken word that highlights the health and wellness challenges in the Black community. The public is invited to share their poetry during open mic following the guest poets. For more information, contact Angela Cox at (510) 620-5516, [Richmond Public Library Teens - Home | Facebook](#), or our website, www.richmondlibrary.org. Attendees are required to wear masks.

Greenway Gap Community Planning and Design Meeting

For years, it's been a dream of many to connect the eastern and western sides of the Greenway at 23rd Street. Right now, the Greenway Trail stops at 23rd Street. To get across 23rd Street, you have to go under a dangerous overpass and walk or bike through a confusing set of city streets to continue to the other side.

The City of Richmond and a team of partners secured an Environmental Justice grant from Caltrans to plan, design and develop a concept for a bridge across 23rd Street that would close the Greenway Gap.

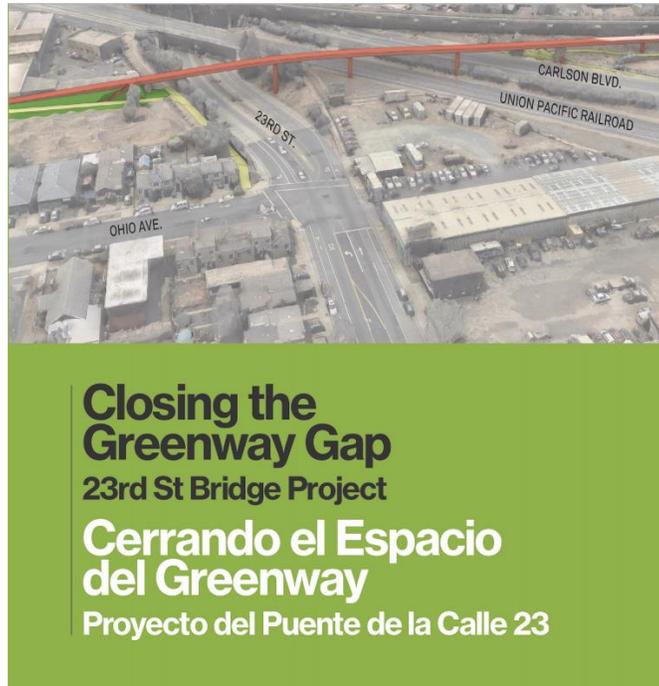

We invite you to attend the Greenway Gap Community Planning and Design Event on April 12, 13, and 14 from 2:00 PM to 6:00 PM at Harbour-8 Park on the Richmond Greenway. Drop by any time to hop on a bike and tour the site, meet with project partners, review possible bridge designs, and let your voice be heard.

If you cannot attend the 3-Day Closing the Greenway Gap event, you can still provide feedback by calling Pogo Park at (510) 215-5500 or sending an email to greenwaybridge@pogopark.org

You can also provide feedback by [taking the online survey](#).

Richmond's First on Demand Electric Shuttle is Named

Last year the Richmond Transportation Division posted a survey to help name the new electric on demand shuttle service. Many thanks to everyone who participated in the survey. Various name suggestions were received for consideration before reaching the final selection of **Richmond MOVES**.

Richmond Moves will launch in conjunction with the City of Richmond Drive Electric Earth Day event on April 20th, 11:30 AM to 1:00 PM at 450 Civic Center Plaza, Richmond, CA 94804. During your lunch break, come learn about electric vehicle and electric bike ownership, financial Incentives, and charging equipment. It will also be an opportunity to receive assistance registering for and learning more about all the Richmond Transportation multimodal e-mobility programs and services.

More information will be provided in the coming weeks. If you are interested in hosting an informational table or showcasing an electric vehicle or an electric bike, please contact Denée Evans at: deneevans@ci.richmond.ca.us or call (510) 621-1718.

Richmond Moves is part of California Climate Investments (CCI), a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment — particularly in disadvantaged communities. Website: caclimateinvestments.ca.gov.

Wastewater Treatment Plant – Fats, Oils, & Grease (FOG)

Please! Do not put grease down the drain! Heavy grease has been reported at Richmond's sewer treatment plant. Grease clogs pipes and can be detrimental to the function of the plant.

For more information about Fats, Oils, and Grease (FOG), please call (510) 620-6594.

GREASE ALERT!
Fats, Oils and Grease can clog our sewer pipes and can cause you **COSTLY** backups in your condo or apartment.

FIGHT F.O.G.
Fats, Oils & Grease can clog the sewer pipes in your area!

The City of Richmond was in your neighborhood working to keep the sewer lines clean, which helps prevent sewer overflows that can pollute our creeks, rivers, and groundwater. Help us fight future sewer backups in your area.

By following a few simple steps, you can help prevent sewer backups and spills:

1. Pour cooled fats, oils and grease into a covered, disposable container and throw it into your garbage can. Never pour fats, oils or grease down sink drains or toilets. **COOL IT, CAN IT, TRASH IT.**
2. Soak up remaining oils and grease with an absorbent material such as paper towels, and throw it into your garbage can.
3. Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage can.
4. Use sink strainers to catch any remaining food waste while washing dishes.

- > Incomplete applications will **NOT** be accepted.
- > Applications will be accepted via email and mail at this time. This is subject to change.
- > No applications will be accepted after the sewer lateral grant funds are exhausted.
- > Reimbursement may take approximately 3 weeks from the date the completed application is received and approved by the City.

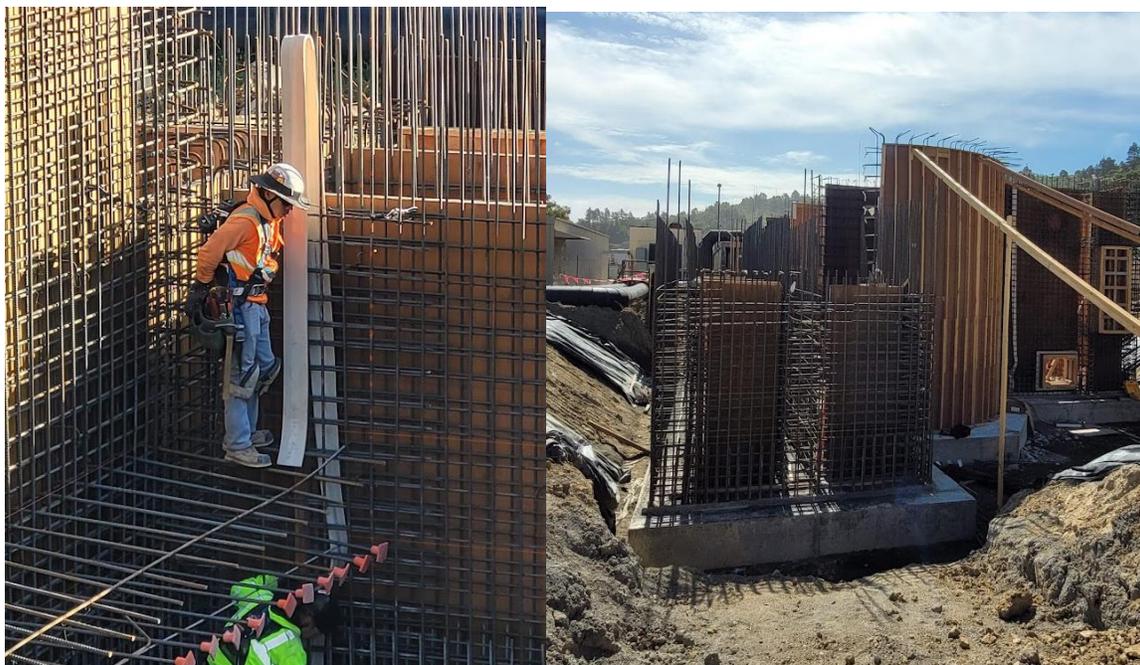

High Priority Critical Improvements Projects

Background: The City of Richmond and Veolia Water (Veolia) are implementing High Priority Critical Improvements Projects at the City's Wastewater Treatment Plant (WWTP), which is managed and operated by Veolia. The purpose of the projects is to replace aging and unreliable infrastructure, improve treatment operating efficiency, comply with future discharge regulations, and improve the functionality of the existing WWTP. The improvements were identified through previous planning efforts, including the 2010 WWTP Master Plan and the 2016 WWTP Facility Plan, to construct the following elements of the WWTP Critical Improvements Projects: (1) New screening and grit removal facilities; (2) Aeration upgrades; and (3) Demolition of existing facilities and site clearing in preparation for future WWTP Facilities. The projects are expected to take approximately 2 ½ years to complete.

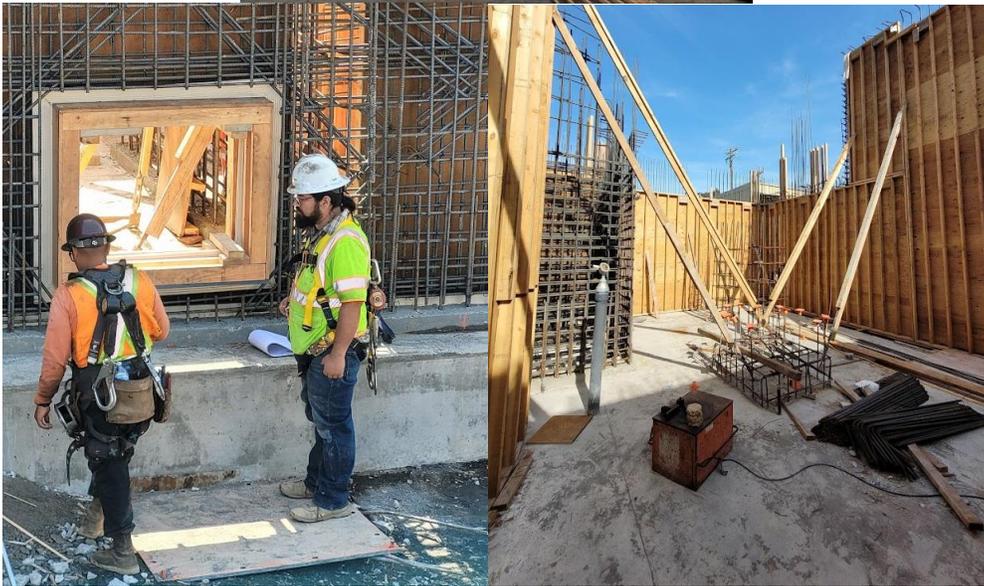

Update: Shimmick continued working on the Pista Grit structure, erecting the wall forms, installing the reinforcing steel and construction joints. They also started working on the new storm drain piping and manhole for the yard. Shimmick continued working on the construction of electrical duct banks to power the future equipment; and they continued working on the Aeration Basins (AB) installing forms for the new slide gates.

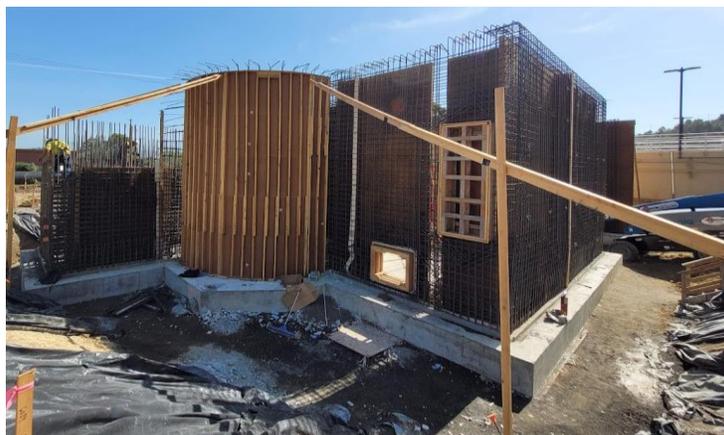

Pista Grit: Shimmick continues working on the installation of the rebar, the wall forms and the construction joints of the Pista Grit structure.

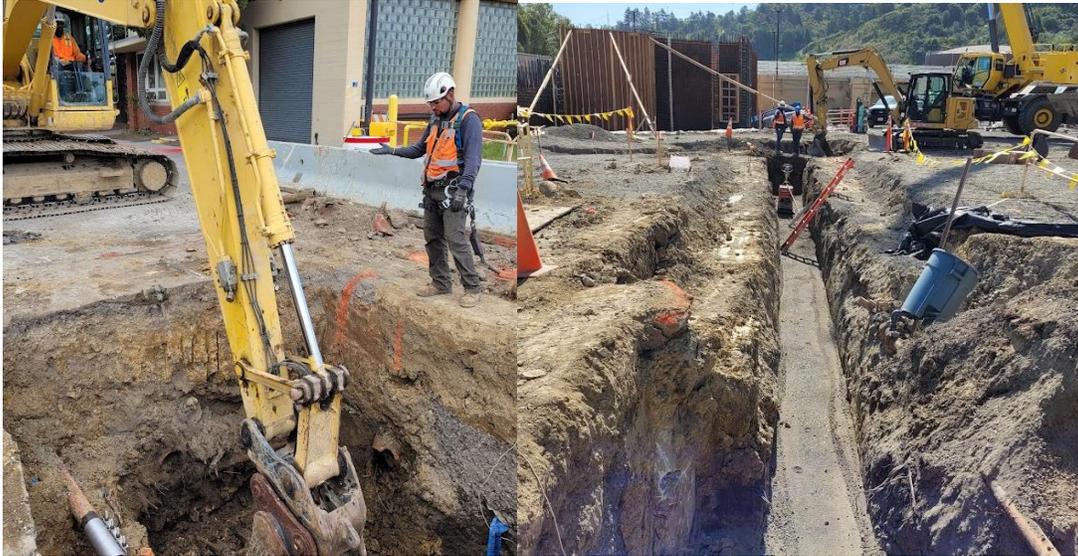

Pista Grit: Shimmick continued working on the rebar, wall forms and construction joints. The water stop (pictured above, L) is installed inside the concrete to prevent leakage.

Pista Grit: RMA (Rebar inspector) is conducting specialty inspection to guarantee the rebar is correctly installed.

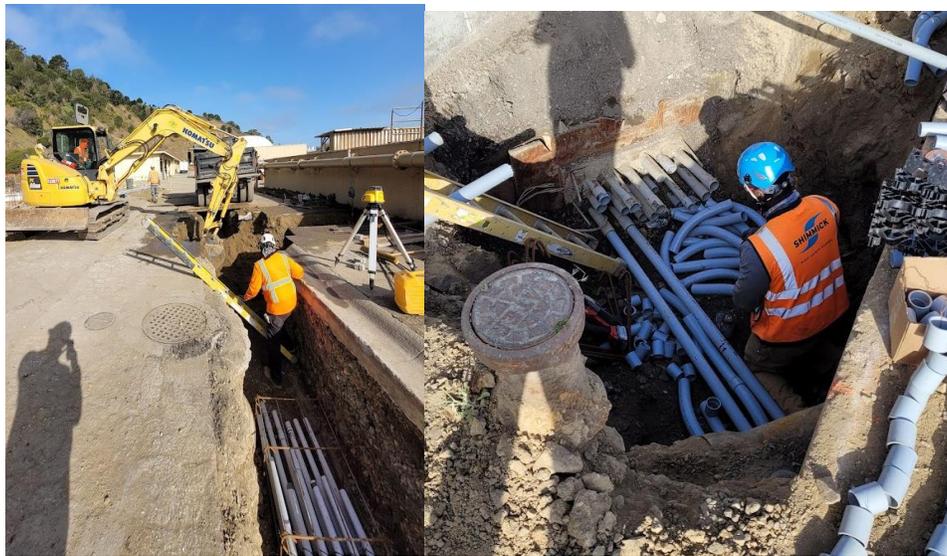

Yard piping: Shimmick is in the process of installing new manhole 8 and the new storm drain piping at the Plant.

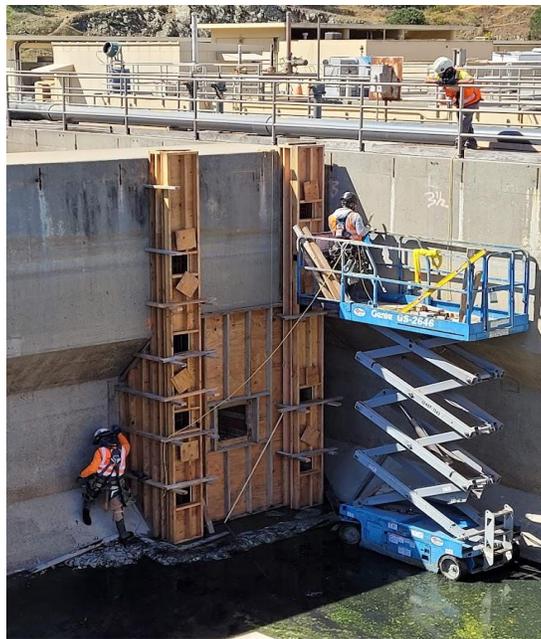

Electrical duct banks: Shimmick is cutting the asphalt, digging the trench, installing the rebar cage and the electrical conduits to connect to the other duct banks.

Aeration Basins: Shimmick continued working on the installation of the new slide gate.

First Street Relief Sewer Project

Background: The First Street Relief Sewer and Pipeline Rehabilitation Project is the final of four design projects from the comprehensive 2016 Collection System Design Project, which also included the construction of the Cutting/Carlson and Hoffman Project (originally two projects), and the Macdonald and Virginia Wet Weather Improvement Project. The Project consists of approximately 3,743 lineal feet of open cut replacement of existing 6-inch sewer, approximately 1,696 lineal feet of open cut replacement of existing 8-inch sewer, approximately 631 lineal feet of open cut

replacement of existing 10-inch sewer, and approximately 125 lineal feet of open cut replacement of existing 18-in sewer. This project began in July 2021 and is expected to be completed well ahead of the Baykeeper due date of July 2023.

Update: To date, D'Arcy & Harty Construction has completed replacement of the entire 6,195 total lineal feet of sewer main line piping included in the project scope. Pipe replacement work was completed in December 2021. Currently, the Contractor is completing filming of the last few segments of NASSCO compliant CCTV video documenting all newly replaced pipes prior to scheduling final street restoration. The first set of post CCTV videos was provided in January 2022. Review by V.W. Housen and Associates team started in February 2022. Currently, post CCTV video production and review continue.

High Priority Sewer Line Replacement Project

Background: The High Priority Sewer Line Replacement Project replaces eight pipelines with a combined length of around 2,700 lineal feet. Scope of work includes reconnection of existing laterals at mains, connection to existing manholes and hardscape and pavement restorations.

Update: To date, D'Arcy & Harty Construction has completed sewer main replacement installations at Potrero and 41st, 12277 San Pablo Ave, 1903 Garvin Avenue, 311 - 341 E Richmond, Dimm Street (right of way in street) between Barrett & Humboldt and 1460 Rifle Range Road. On March 16, 2022, Right of Entry/Easement Access Authorization letters were finalized by the City Manager's Office for the next (2) sewer mainline replacement segments located at 550 Key Blvd and 415 Dimm Street. Investigational pre-CCTV is scheduled for the week of March 28th. Sewer mainline replacement will be accomplished via the "Pipe Bursting" method after Access Points (Manholes and/or Cleanouts) and all Lateral connections have been identified.

2021 Grade 5 RAA Line Replacement Project

Background: The 2021 Grade 5 RAA (Risk Assessment Analysis) Replacement Project replaces seven sewer pipelines with an approximate combined length of 760 lineal feet. The work includes replacement of deteriorated sewer pipe segments within the collection system using pipe bursting or open cut methods. This project was competitively bid to be performed on a "design-build" basis: the Contractor is responsible for engaging the services of an engineering firm to issue design drawings for lines with utility conflicts and other constructability issues and prepare final, as-built drawings.

Update: W.R. Forde has completed installations at 21st Street and Potrero; Rheem and 23rd Street; 4925 Macdonald ("Planet Fitness"); Virginia and 22nd Streets, 1600 Chancellor and AC Transit at 21st Street between Bissell and Carlson. Currently they are replacing 278 lineal feet of failed 6" clay sewer main with New 8" High Density Polyethylene (HDPE) pipe via the "Pipe Bursting" method in the vicinity of 403 McLaughlin.

W R Forde crews prepare to reconnect the existing lateral line to the new Main.

Fused 8" black HDPE sewer main line replacement pipe. This final section was 140 LF. The pipe is attached to a bursting head and is "pulled" into the same alignment following "bursting" the existing 6" clay pipe.

Despite difficult access and tight working conditions, W.R. Forde crews progress on schedule restoring lateral service line connections to homes and businesses along the newly replaced 8" sewer mainline.

Marina Bay Parkway Force Main Extension Project

Background: The Marina Bay Parkway Force Main Extension Project extends the existing Marina Bay Parkway force main to a new manhole at the intersection of Pierson Avenue and Marina Bay Parkway and installs a new gravity sewer pipeline from the Pierson/Jetty Drive intersection, across Marina Bay Parkway. This piping reconfiguration will eliminate sanitary sewer overflows that occur from depressed manholes located at the intersection of Marina Bay Parkway and Pierson Avenue. Richmond-based, local contractor W.R. Forde Associates was the lowest, responsive bidder at \$357,200.00.

Update: The project work was initially completed in December 2021. The Contractor returned recently to install a bolt down manhole frame and cover on the new manhole at the termination of the Force Main. The material for the manhole frame and cover were a long-lead item and were installed in March 2022. Additional scope to alleviate future SSO's by adding 991 LF of 8" gravity sewer main and three (3) new manholes with bolt down covers along 27th Street is being formalized.

Sodium Bisulfite (SBS) Facility Improvements Project

Background: The City of Richmond (COR) and West County Agency (WCA) entered into a Joint Powers Agreement (JPA) on July 27, 2020, to share the design and construction costs associated with the new Sodium Bisulfite Facility construction and system upgrade. During the design of the new SBS Facility, WCA and the COR agreed to upgrade the SHS mechanical, electrical, plumbing, instrumentation, and SCADA system, as well. Myers & Sons Construction, LLC is the Contractor. The SBS Facility Improvements Project includes the following major elements:

- New sodium bisulfite and sodium hypochlorite chemical metering and instrumentation systems to replace the existing chemical metering and instrumentation systems.
- Sodium bisulfite and sodium hypochlorite improvements include civil, structural, mechanical, electrical, instrumentation and SCADA system and facility improvements.
- Demolition of existing facilities for project improvements.

Update: Myers & Sons completed the wall and cap structure that will protect Richmond's effluent line by preparing the subgrade, installing the void form material, placing the rebar and forms, and then finally pouring the concrete (see photos below).

Myers & Sons is excavating and preparing the subgrade per the geotech's recommendations. Questa's technician (R, top) is performing compaction testing. Below the void form material to prepare for the wall and cap structure is installed.

Myers & Sons is working on the rebar and forms for the future wall and cap structure that will protect the existing effluent line at the end of the treatment process.

Myers & Sons is placing the concrete to complete the wall and cap structure.

SCADA Upgrade Project

The SCADA project (an acronym for Supervisory Control and Data Acquisition) will standardize, replace, and configure the existing SCADA Network communication, the majority of which is outdated, failing and has exceeded its useful life. An upgraded SCADA system is crucial to allow for Veolia Staff at the City of Richmond's Wastewater Treatment Plant to monitor and control processes locally and at remote locations, including remote telemetry of the City's lift stations.

Update: The contractor is Calcon Systems, Inc. The project is approximately 98% complete, and the contractor is installing roughly 300+/- field instrumentation tags throughout the WWTP facilities which correspond to SCADA system program identification labels (see photos below).

Calcon Systems has installed approximately 85% of the 300 +/- field instrumentation tags throughout the WWTP facilities which correspond to the SCADA system program identification labels.

Thank you for keeping up with the activities in the City of Richmond. Feel free to contact the City Manager's Office if you have any questions or comments about these or any other items of interest to you.
