Drive Electric Earth Day Event and Richmond MOVES E-Shuttle Launch

The Richmond Transportation Department is hosting a Drive Electric Day Event next week that will highlight all the electric mobility services and programs that Richmond has to offer.

Attendees will have an opportunity to learn about regional and state rebate programs to purchase electric vehicles (EVs) and bikes.

Reasons to Consider Owning an Electric Vehicle (EV)

Benefits:

- It's a performance vehicle that will save you money.
- Instant torque allowing you to quickly speed up and merge onto the freeway
- \$1.24 per eGallon (U.S. Average)
- Latest technology such as driver assist lane tracking, emergency braking, and over-the-air updates
- Less maintenance
- Safer. EVs are ten times less likely to catch fire than conventional cars
- And, of course, they're better for the environment, even when accounting for their manufacturing carbon emissions and when using electricity from coal plants.

If you are an EV owner, bring your vehicle to show and share your experience with others. Register to attend on the link provided in the flyer below.

HOME-American Rescue Plan (HOME-ARP)

Contra Costa County needs your input on homelessness needs within your community.

The American Rescue Plan Act of 2021 appropriated \$5 billion to assist individuals or households who are homeless, at risk of homelessness, and other vulnerable populations, by providing rental housing, rental assistance, supportive services, and non-congregate shelter, to reduce homelessness and increase housing stability. In September 2021, HUD awarded the Contra Costa County HOME Consortium (which consists of Contra Costa County and the Cities of Antioch, Concord, Pittsburg, and Walnut Creek) **\$12,090,215** in HOME-ARP funds.

We invite you to share your thoughts by taking a survey.

The HOME-ARP survey is designed to gather information from stakeholders, affordable housing developers, and community members about homelessness needs in Contra Costa County and HOME-ARP projects being planned. The survey takes approximately 10 minutes to complete and will be available until **June 1st, 2022**.

[English Survey](#)

La encuesta del programa HOME-ARP (en sus siglas en inglés) está diseñada para recopilar información de partes interesadas, los desarrolladores de viviendas asequibles y los miembros de la comunidad sobre las necesidades de las personas sin hogar en el Condado de Contra Costa y los proyectos de HOME-ARP que se están planificando. La encuesta tardará aproximadamente 10 minutos en completarse y estará disponible hasta el **1 de junio de 2022**.

Fire Station Visit - Rich City Rides

Rich City Rides conducts community bike rides on Sundays which are designed to promote community, healthy habits and exercise, and develop bike recreation, transportation, and safety. This mission and that of the Richmond Fire Department are aligned. This past Sunday, cyclists visited Richmond Fire Station 64 to learn more about health, safety, and emergency response.

High Angle Rescue

Richmond Firefighters conduct high angle rescue training. When slopes and elevations make it difficult to recover and rescue accident victims, high angle rescue skills come in handy as firefighters trained in them know exactly how to efficiently, quickly, and most

importantly – safely transport victims to safer ground where they can get immediate medical care that they need. This is a critical requirement, especially in locations and businesses that pose the risk of elevated rescues such as multi-story buildings, vessels, tank farms, elevated platforms, below grade vessels and cell phone towers. Training techniques include line transfers, rigging, pick-offs, anchor point selection, advantage systems, belaying, and rappelling.
