6th Cycle Housing Element and Housing Equity Roadmap Pop-Up Events!

The City of Richmond is inviting members of the community to participate in the pop-up events being held this month. These pop-up events will be a great opportunity for members of the community to learn about the Housing Element process, and to share their lived experiences. The City is planning to hold a few pop-up events per month throughout the year to ensure all community voices are heard.

For the month of May, the pop-up events will be held on:

May 14, 2022 – Spring Family Day at [Richmond Art Center](#) at 12:00 PM – 3:00 PM

May 21, 2022 – Willie Mays Day at [Nicholl Park](#) at 10:00 AM – 2:00 PM

Richmond is updating its Housing Element, which will guide the city's policies and actions to meet the current and future housing needs of Richmond residents. The Housing Element team will be holding activities at local community events and **wants to hear your thoughts on solutions to housing issues in Richmond!**

Travel Safe Richmond Community Open House - May 18th

The City of Richmond is inviting residents to attend a Community Open House on Wednesday, May 18th from 5:30 PM to 7:30 PM. This open house will be a chance for Richmond's community to learn more about the City's two-pronged approach to improving roadway safety for all users: people walking, biking, rolling, and driving. Input from the community members is a critical component of this effort. Share your thoughts with us on roadway safety!

This outdoor community open house will be located outside of City Hall in the Civic Center Plaza at 450 Civic Center Plaza, Richmond, CA 94804. Learn more about the project by visiting [Travel Safe Richmond](#) or by scanning the QR Code in the flyer. We also take community input on the website through our Interactive Map.

For more information, please visit the [Travel Safe Richmond](#) site and stay up to date by signing up to receive email updates on our webpage. Please reach out to Lydia Elias at travelsafe@ci.richmond.ca.us with any questions.

6. **Community Development**

Environmental Justice Element Community Outreach Begins this Month!

A new General Plan Element is being prepared to address Environmental Justice and lay out a new roadmap for achieving it. As a first step in preparing the Environmental Justice Element, we need to hear from you about what the priorities for it should be. Please take this brief survey to share your thoughts. Note, this survey is the first of several opportunities for people who live or work in Richmond to provide feedback and share ideas about Environmental Justice and how our community should address it. This survey's deadline has been extended until **May 16**.

Alcance Comunitario para el Elemento de Justicia Ambiental Empieza este Mes!

Un nuevo elemento del Plan General se está preparando para abordar la Justicia Ambiental y para delinear una nueva trayectoria para conseguirla. Como primer paso en la preparación del Elemento de Justicia Ambiental, necesitamos que usted nos diga cuáles deben ser las prioridades para este elemento. Por favor, complete esta breve encuesta para compartir sus ideas. Recuerde que esta encuesta es la primera de varias oportunidades para que las personas que viven o trabajan en Richmond compartan sus opiniones e ideas acerca de la Justicia Ambiental y cómo debería ser implementada en nuestra comunidad. Esta encuesta permanecerá abierta hasta el **16 de Mayo**.

HOME-American Rescue Plan (HOME-ARP)

Contra Costa County needs your input on homelessness needs within your community.

The American Rescue Plan Act of 2021 appropriated \$5 billion to assist individuals or households who are homeless, at risk of homelessness, and other vulnerable populations, by providing rental housing, rental assistance, supportive services, and non-congregate shelter, to reduce homelessness and increase housing stability. In September 2021, HUD awarded the Contra Costa County HOME Consortium (which consists of Contra Costa County and the Cities of Antioch, Concord, Pittsburg, and Walnut Creek) **\$12,090,215** in HOME-ARP funds.

We invite you to share your thoughts by taking a survey.

The HOME-ARP survey is designed to gather information from stakeholders, affordable housing developers, and community members about homelessness needs in Contra Costa County and HOME-ARP projects being planned. The survey takes approximately 10 minutes to complete and will be available until **June 1st, 2022**.

[English Survey](#)

La encuesta del programa HOME-ARP (en sus siglas en inglés) está diseñada para recopilar información de personas u organizaciones interesadas, los desarrolladores de viviendas asequibles y los miembros de la comunidad sobre las necesidades de las personas sin hogar en el Condado de Contra Costa y los proyectos de HOME-ARP que se están planificando. La encuesta tardará aproximadamente 10 minutos en completarse y estará disponible hasta el **1 de junio de 2022**.

Rydin Road Ambassador Announcement

Collaborising is looking for a few good men (and women) to serve as Rydin Road Ambassadors. Rydin Road is currently home to 25 plus individuals living in RV's or cars along the .25 mile stretch of Rydin Road on the way to Point Isabel. Our **Clean Rydin Road Program** seeks to match unhoused Rydin Road Residents with Ambassadors from the community to breach the gap between the housed and unhoused communities in Richmond. Our goal is to build relationships and to create understanding among groups that have been pitted against one another to demonstrate that we all belong in Richmond.

Please reach out to Lea Murray, Executive Director of Collaborising at (954) 736-8343 or collaborising@gmail.com for more information on how you can be the answer to a problem that has divided our community. A small stipend is provided for your participation.

7. **Fire**

Sound Off Program

Part of a new national pilot program, The Richmond Fire Marshal Along with Station 64, which includes Engine Company & Truck Company 64, participated in the Sound Off event on Friday May 6th at Martin Luther King Elementary School. All three third grade classes (60 students) received the presentation and were treated to a show and tell of both Engine and Truck apparatus. More than 3,000 people die in home fires each year in the United States. Most of these victims were in homes without working smoke alarms. Simply put, **working smoke alarms save lives**. The Sound Off Program includes three standards-based classroom activities that get students and families

involved in testing their home smoke alarms, checking for potential fire dangers in the home, and planning how to escape in the event of a home fire.

Sound The Alarm Program

Firefighters from the Richmond Fire Department and members of the American Red Cross visited residents within the Pullman & Park Plaza Area on, May 7th, 2022, to perform free smoke alarm inspections and installations as needed. This campaign is part of a community-wide fire prevention effort to reach out to residents, including older adults, young people, and residents of neighborhoods, who are vulnerable to fire deaths. Installing smoke alarms in the homes of Richmond residents who do not have them will increase their odds of surviving a home fire. Overall, there were 41 homes, 145 smoke alarms installed and 149 residents were given an educational safety lesson on fire home safety. There was also one resident who requested a bed shaker alarm, which the American Red Cross will provide.

9th Annual McKinley Williams - John Easterling Community Chess Tournament

On Saturday May 7, 2022, the Shields-Reid Community Center hosted the 9th Annual McKinley Williams - John Easterling Community Chess Tournament. Close to 50 adult and youth chess players and close to 100 family supporters showed up for a day of chess at Shields-Reid. Ages 7 years old to 75 years old had a great day of competition and fun. Many folks left with trophies, awards, and great memories. Beginners and rated chess players enjoyed the North Richmond facilities and expressed an interest in returning next year. A couple of local Shields Reid youth participants won trophies in their divisions.

Celebrate Bike Week on an Electric Bike!

Richmond MOVES is here, have you taken your free ride this month?

Last year the Richmond Transportation Division posted a survey to help name the new electric on demand shuttle service. Many thanks to everyone who participated in the survey. Various name suggestions were received for consideration before reaching the final selection of **Richmond MOVES**.

More information will be provided in the coming weeks. If you are interested in hosting an informational table or showcasing an electric vehicle or an electric bike, please contact Denée Evans at: denee.evans@ci.richmond.ca.us or call (510) 621-1718.

Richmond Moves is part of California Climate Investments (CCI), a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment — particularly in disadvantaged communities. Wastewater Treatment Plant – Fats, Oils, & Grease (FOG)

PLEASE! DO NOT PUT GREASE DOWN THE DRAIN! Heavy grease has been reported at Richmond's sewer treatment plant. Grease clogs pipes and can be detrimental to the function of the plant.

For more information about Fats, Oils, and Grease (FOG), please call (510) 620-6594.

GREASE ALERT!
Fats, Oils and Grease can clog our sewer pipes and can cause you **COSTLY** backups in your condo or apartment.

FIGHT F.O.G.
Fats, Oils & Grease can clog the sewer pipes in your area!

The City of Richmond was in your neighborhood working to keep the sewer lines clean, which helps prevent sewer overflows that can pollute our creeks, rivers, and groundwater. Help us fight future sewer backups in your area.

By following a few simple steps, you can help prevent sewer backups and spills:

1. Pour cooled fats, oils or grease into a covered, disposable container and throw it into your garbage can. Never pour fats, oils or grease down sink drains or toilets. **COOL IT, CAN IT, TRASH IT.**
2. Soak up remaining oils and grease with an absorbent material such as paper towels, and throw it into your garbage can.
3. Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage can.
4. Use sink strainers to catch any remaining food waste while washing dishes.

For more information, contact the City of Richmond at (510) 620-6594

Planta de Tratamiento de Aguas Residuales – Aceites y Grasas (FOG)

¡POR FAVOR! ¡NO PONGA GRASA POR EL DRENAJE! Se ha reportado grasa pesada en la planta de tratamiento de alcantarillado de Richmond. La grasa obstruye las tuberías y puede ser perjudicial para la función de la planta.

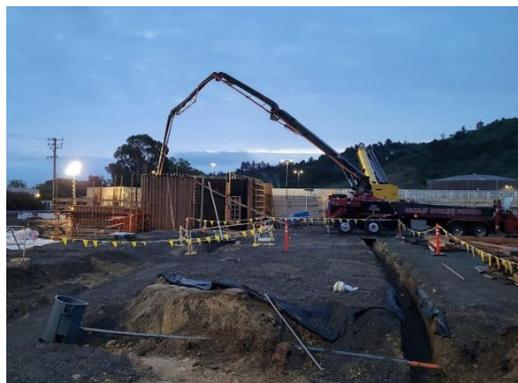

High Priority Critical Improvements Projects

The City of Richmond and Veolia Water (Veolia) are implementing High Priority Critical Improvements Projects at the City's Wastewater Treatment Plant (WWTP), which is managed and operated by Veolia. The purpose of the projects is to replace aging and unreliable infrastructure, improve treatment operating efficiency, comply with future discharge regulations and improve the functionality of the existing WWTP. The improvements were identified through previous planning efforts, including the 2010 WWTP Master Plan and the 2016 WWTP Facility Plan, to construct the following elements of the WWTP Critical Improvements Projects: (1) New screening and grit removal facilities; (2) Aeration upgrades; and (3) Demolition of existing facilities and site clearing in preparation for future WWTP Facilities. The projects are expected to take approximately 2 ½ years to complete.

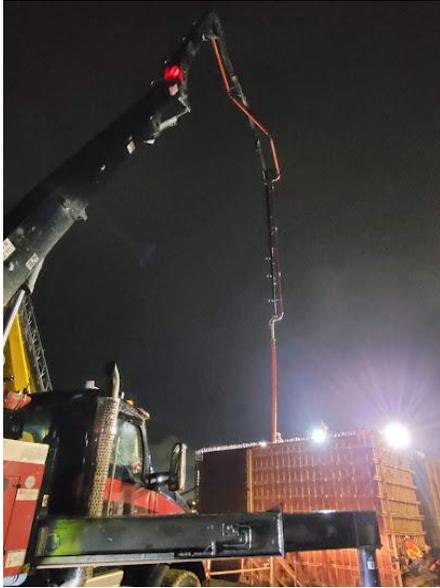

Shimmick continued working on the Pista Grit structure, pouring concrete for walls 1C, 1D and 1E and stripping forms of the previously poured walls. They also continued working on yard piping by installing the new 3W (service plant water). Shimmick continued working on the electrical system to power the future equipment by core drilling the new conduit path into the aeration basins. They also worked on the blower building by installing the CMU (concrete masonry unit) block and continued working on the Aeration Basins by doing concrete repairs.

Pista Grit: Beginning at dawn and continuing through the morning, Shimmick conducted a concrete pour of some of the walls of the new structure.

Pista Grit: Wall 1-C during early morning concrete pour.

Pista Grit: Shimmick during concrete placement of walls 1-D & 1-E.

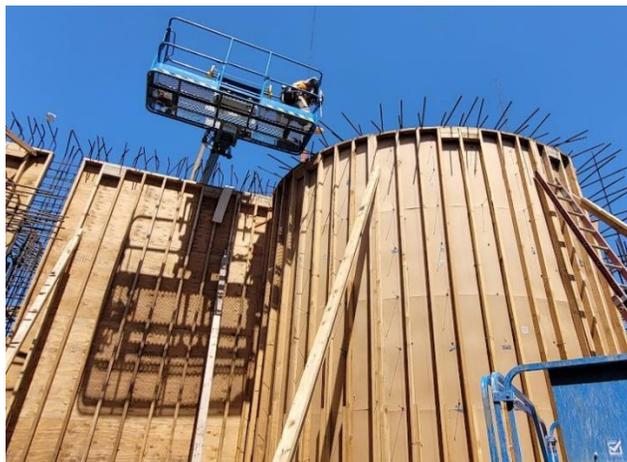

Pista Grit: Shimmick stripping (removing) the forms of the walls that were previously poured.

Pista Grit: Shimmick's carpenters installing the forms of wall 1-B.

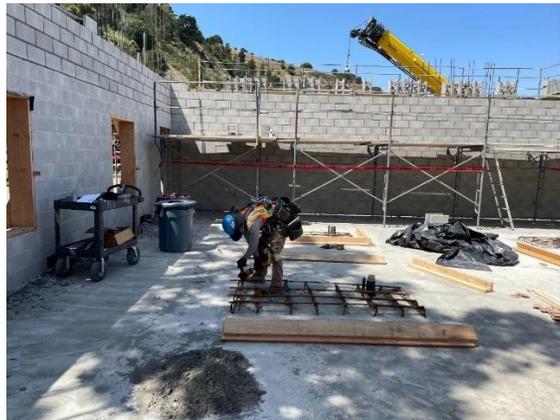

Yard piping: Shimmick excavated, backfilled and compacted a thin layer of AB, and installed 3W (service plant water) piping that will provide water to the new building.

Blower building: Stoney Masonry (Shimmick's CMU subcontractor) mobilized and started to lay block. Shimmick's carpenters previously set the door frames on wall lines.

Blower building: CMU block continues to be placed by Stoney Masonry Crew. Shimmick's electricians were setting boxes and conduits that run through the wall.

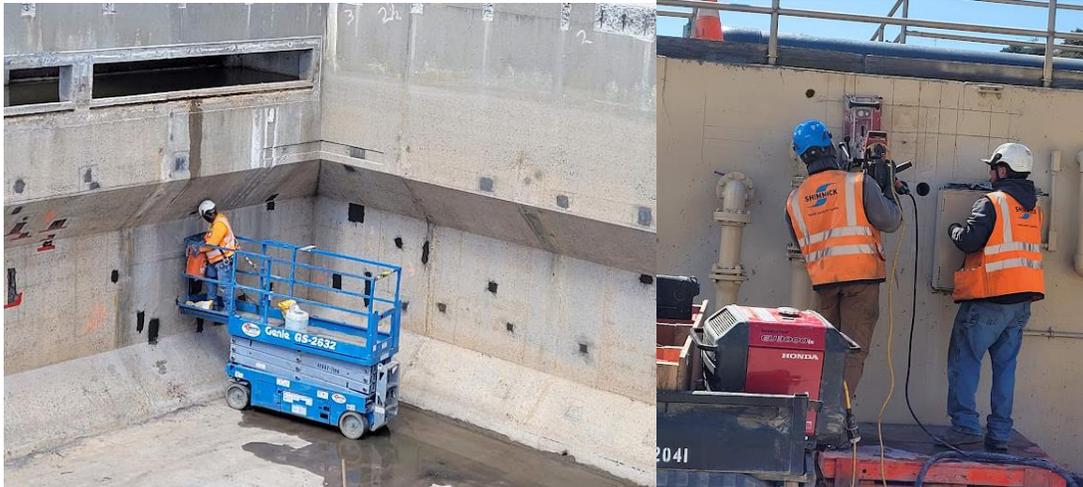

Blower building: Shimmick's carpenter is installing the forms for the equipment pad inside the Blower Room.

Blower building: Internal and perimeter CMU installed and ready for the first grout pour. The block has been laid to a pour height of 13'4". The holes above the windows (above) were drilled to install future pipe support anchors.

Aeration basins: Shimmick continued to drill, clean and patch, as directed by Carollo in the structural report to complete the concrete repairs.

Electrical: Shimmick drilling cores into the aeration basin channel for conduit runs, into aeration basins 3 & 4, to power the future equipment in the basins.

First Street Relief Sewer Project

The First Street Relief Sewer and Pipeline Rehabilitation Project is the final of four design projects from the comprehensive 2016 Collection System Design Project, which also included the construction of the Cutting/Carlson and Hoffman Project (originally two projects), and the Macdonald and Virginia Wet Weather Improvement Project. The Project consists of approximately 3,743 lineal feet of open cut replacement of existing 6-inch sewer, approximately 1,696 lineal feet of open cut replacement of existing 8-inch sewer, approximately 631 lineal feet of open cut replacement of existing 10-inch sewer, and approximately 125 lineal feet of open cut replacement of existing 18-in sewer. This project began in July 2021 and is expected to be completed well ahead of the Baykeeper due date of July 2023.

To date, D'Arcy & Harty Construction has completed replacement of the entire 6,195 total lineal feet of sewer main line piping included in the project scope. Pipe replacement work was completed in December 2021. Currently, the Contractor is

completing filming of the last few segments of NASSCO compliant CCTV video documenting all newly replaced pipes prior to scheduling final street restoration. The first set of post CCTV videos was provided in January 2022. Review by V.W. Housen and Associates team started in February 2022. Currently, post CCTV video production and review continue.

High Priority Sewer Line Replacement Project

The High Priority Sewer Line Replacement Project replaces (8) pipelines with a combined length of around 2,700 lineal feet. Scope of work includes reconnection of existing laterals at mains, connection to existing manholes and hardscape and pavement restorations.

To date, D'Arcy & Harty Construction has completed sewer main replacement installations at Potrero and 41st, 12277 San Pablo Ave, 1903 Garvin Avenue, 311 - 341 E Richmond, Dimm Street (right of way in street) between Barrett & Humboldt and 1460 Rifle Range Road. On March 16, 2022, Right of Entry/Easement Access Authorization letters were finalized by the City Manager's Office for the next (2) sewer mainline replacement segments located at 550 Key Blvd and 415 Dimm Street. Investigational pre-CCTV was conducted for 550 Key Blvd the week of April 25th. Sewer mainline replacement and addition of strategically placed manholes for future access and maintenance will be accomplished via the "Pipe Bursting" method is scheduled for May 16th - May 27th, 2022.

2021 Grade 5 RAA Line Replacement Project

The 2021 Grade 5 RAA (Risk Assessment Analysis) Replacement Project replaces seven sewer pipelines with an approximate combined length of 760 lineal feet. The work includes replacement of deteriorated sewer pipe segments within the collection system using pipe bursting or open cut methods.

W.R. Forde has completed installations at 21st Street and Potrero; Rheem and 23rd Street; 4925 Macdonald ("Planet Fitness"); Virginia and 22nd Streets, 1600 Chanslor; AC Transit / 21st Street between Bissell and Carlson and 403 McLaughlin. NASSCO level Post CCTV and As-Built Drawings for all replaced mainline segments were hand delivered to Housen Associates on 3/29/22. As of May 3, 2022, review of As-Built Drawings and Post CCTV are underway.

Marina Bay Parkway Force Main Extension Project

The Marina Bay Parkway Force Main Extension Project extends the existing Marina Bay Parkway forcemain to a new manhole at the intersection of Pierson Avenue and Marina Bay Parkway and installs a new gravity sewer pipeline from the Pierson/Jetty Drive intersection, across Marina Bay Parkway. This piping reconfiguration will eliminate sanitary sewer overflows that occur from depressed manholes located at the

intersection of Marina Bay Parkway and Pierson Avenue. Richmond-based, local contractor W.R. Forde Associates, was the lowest, responsive bidder at \$357,200.00.

The project work was initially completed in December 2021. The Contractor returned recently to install a bolt down manhole frame and cover on the new manhole at the termination of the Force Main. The material for the manhole frame and cover were a long-lead item and were installed in early March 2022. The TA for additional scope to alleviate future SSO's by adding 991 LF of 8" gravity sewer main and three (3) new manholes with bolt down covers along 27th Street was submitted to the City on 3/14/22. This is targeted for inclusion on the Agenda for the 5/17/22 Regular City Council Meeting.

Sodium Bisulfite (SBS) Facility Improvements Project

The City of Richmond (COR) and West County Agency (WCA) entered into a Joint Powers Agreement (JPA) on July 27, 2020, to share the design and construction costs associated with the new Sodium Bisulfite Facility construction and system upgrade. During the design of the new SBS Facility, WCA and the COR agreed to upgrade the SHS mechanical, electrical, plumbing, instrumentation and SCADA system, as well. Myers & Sons Construction, LLC is the Contractor. The SBS Facility Improvements Project includes the following major elements:

- New sodium bisulfite and sodium hypochlorite chemical metering and instrumentation systems to replace the existing chemical metering and instrumentation systems.
- Sodium bisulfite and sodium hypochlorite improvements include civil, structural, mechanical, electrical, instrumentation and SCADA system and facility improvements.
- Demolition of existing facilities for project improvements.

Myers & Sons installed the electrical duct bank from the new SBS building to the existing chlorine contact basins. Activity included digging the trench, installing the rebar and the electrical conduits; they finalized the activity by pouring red concrete to complete the conduit protection. Myers also started the installation of the reinforcing steel of the new building footings and sump.

Electrical duct banks: Myers & Sons excavated the trench, installed rebar, conduits and then finished with encasing the duct banks in red concrete.

SCADA Upgrade Project

The SCADA project (an acronym for Supervisory Control and Data Acquisition) will standardize, replace and configure the existing SCADA Network communication, the majority of which is outdated, failing and has exceeded its useful life. An upgraded SCADA system is crucial to allow for Veolia Staff at the City of Richmond's Wastewater Treatment Plant to monitor and control processes locally and at remote locations, including remote telemetry of the City's lift stations.

The contractor is Calcon Systems, Inc. The project is approximately 98% complete, and the contractor is installing roughly 300+/- field instrumentation tags throughout the WWTP facilities which correspond to SCADA system program identification labels. Equipment tagging is 100% complete. One outstanding item is the headworks PLC upgrade.

The SCADA equipment tagging is 100% complete.

Trash Capture Project, Bayview (currently in design)

In 2017, Caltrans and the City of Richmond collaborated to implement the Trash Capture Project. The Contech Engineered Solutions CDS system is a below-ground, flow-through treatment device that uses multiple treatment processes including swirl concentration and continuous deflective separation (CDS) to screen, separate and trap trash, debris, sediment, hydrocarbons and other pollutants from stormwater runoff. Veolia Water, in conjunction with the City of Richmond, successfully installed four such devices in 2017, 2018, 2019 and 2021; another device is being installed in 2022 on Bayview. Subtronics Corporation (under direction of Project Engineer, Harris & Associates) conducted an investigation of the 20' deep junction box to confirm if creek and storm water flows co-mingle and verify conditions which could impact constructability.

*Subtronics safely perform Confined Space Entry to confirm conditions 20' below.
