Project Location (include county): Multiple parcels in the City of Richmond, Contra Costa County

Project Description:

This Addendum to the Environmental Impact Report (EIR) certified in 2012 for the City of Richmond General Plan 2030 analyzes the impacts associated with the Form-Based Code (FBC), which includes several of the City's commercial corridors and surrounding areas. The FBC creates pedestrian and bicycle friendly mixed-use neighborhoods, consistent with the intent of the City's General Plan. In accordance with CEQA, the EIR Addendum demonstrates, based on substantial evidence, that the prior environmental analysis in the 2012 EIR adequately addresses the potential environmental effects of the project. The project does not require subsequent environmental review pursuant to CEQA Guidelines Section 15162 and 15164, and supports the City's finding that the project would not result in significant new issues nor exceed the level of impacts identified in the previously certified 2012 EIR requiring additional analysis under CEQA.

This is to advise that the City of Richmond has approved the above

3. Mitigation measures beyond those adopted in connection with the Final EIR were not adopted for the project.
4. A Mitigation Monitoring and Reporting Program beyond that adopted in connection with the Final EIR was not adopted for this project. The project remains subject to the MMRP adopted in 2012, as applicable.
5. A statement of Overriding Considerations beyond that adopted in connection with the Final EIR was not adopted for the project.
6. Findings were made pursuant to the provisions of CEQA.
