## 6. 13<sup>th</sup> Street Sanitary Sewer Wet Weather Capacity Project Begins

While the Richmond sanitary sewer system is “out of sight; out of mind” for many residents, it is an important part of the City of Richmond being good stewards of the environment and of San Francisco Bay. As part of this effort, the City’s Department of Water Resource Recovery has initiated a project to eliminate repeat sanitary sewer overflows (SSOs) during wet weather along 13<sup>th</sup> Street. These wet weather SSO locations are at the intersections of 13<sup>th</sup> Street and Costa, Rheem, and Dunn. The 13th Street sanitary sewer wet weather capacity project upsizes the sewer main along 13th Street, and replaces pipes with structural defects in the associated neighborhood.

The project is funded from the recently issued wastewater revenue bonds, managed by the Veolia Capital Program Management team, and will be constructed by local contractor WR Forde. Construction began this week and will last approximately twelve months.

For additional information, you can visit the project page here:  
<http://www.ci.richmond.ca.us/3491/Projects>

## 7. Unity Park Artists Selected

The City of Richmond was previously awarded a State of California Proposition 84 grant to develop, beautify, and add amenities to the *Unity Park* section of the Richmond Greenway, the walking and biking trail that transects the city. The project will include two murals and two sculptures based on themes of unity and diversity.

On August 2<sup>nd</sup>, six artists presented their proposals to a selection panel. Out of the six applicants, four were chosen to complete their work. These artists are sculptors Archie Held and Richard Muro; and muralists Seren Moran and Rebeca Garcia-Gonzalez, all of Richmond. Each of the two muralists will receive \$10,000, and the two sculptors will receive \$25,000 to complete the work. Budgets for the murals and sculptures will include the design, fabrication, and installation of artwork.

Murals: The site of the two 80' x 6' murals will be across from each other at one of the main entrances to the Greenway near 16<sup>th</sup> Street/Ohio Avenue in Richmond. The artists are required to include one or more of the themes themes of unity and diversity, and must each use six community members to assist with early stages of painting. The estimated date for the mural installation is September 30, 2017.

Sculptures: The site of the two sculptures will be at each of the two main entrances to the Greenway near 16<sup>th</sup> Street/Ohio Avenue in Richmond. The two sculptors will

also be required to include six members of the community in fabrication and installation. Archie Held's studio is right next to the Greenway.

The maximum sculpture height is between 12' – 15' high, and of any width that is both appropriate for the design and sturdy. One sculpture will be made out of metal, and one out of wood. Each sculpture must have a footing securing it to the site. The estimated date for the mural installation is October 31, 2017.

Some themes chosen by the Unity Park community were: gardens, natural food, youth learning to grow food, multicultural/diversity images, peace among people of all colors, community participation, unity, peace, history of Richmond (railroads, shipyards, blues, Pullman cars), crime prevention, and art that promotes education.

## **8. City Manager Chronicles**

I have listed below some of the topics for meetings that I attended during the past week in the hope that it provides an idea of the varied issues with which our organization deals routinely.

Meetings and events of note this past week included:

- Attended the luncheon to honor Youth Ambassadors, who assisted with litter clean-up and other activities in the area around Macdonald and 23<sup>rd</sup> Street;
- Met, together with Project Manager Lina Velasco and CIP Manager Yader Bermudez, and the City's consultants, with area residents to discuss soil issues on the Greenway/Unity Park project;
- Met with representatives from Mercy Housing, along with City consultants Tia Ingram and Olson Lee, to discuss the Hacienda redevelopment project;
- Attended the Building and Trade Business and Construction Expo, co-hosted by the Richmond Employment and Training Department at the Richmond Auditorium, to make introductory remarks;
- Attended the monthly meeting of Contra Costa County city managers;
- Met, along with Port Director Jim Matzorkis, with representatives from Auto Warehousing Company (AWC) and Subaru, to discuss port activities;
- Met with Stan Hakes, the Executive Director of RecycleMore, to discuss various topics;
- Attended the monthly South Shoreline Community Advisory Committee that is working with the Department of Toxic Substances Control on soil remediation issues;
- Attended the Love Your Block First Harvest Feast at Parchester Community Center;
- Met, together with Administrative Chief Shasa Curl, with Nicole Burak, field representative for Senator Kamala Harris.

These meetings were in addition to attending the regular management staff meeting, agenda planning, reviewing staff reports to the City Council, doing department head “check-ins,” having discussions on various personnel matters, and having short discussions with staff, community members, members of the press, etc.

Please feel free to contact me if you have any questions about the substance of these or any other topics.

## **9. LEAP Launches Donation Page for Richmond Resident Scholarships**

LEAP, Richmond’s outstanding literacy program, is launching a donation page for Richmond resident scholarships. The LEAP Career Online-High School diploma program, (COHS) first launched in March of this year, and has proven to be a popular and successful option for the 30 enrolled Richmond residents. With three graduates to date and another dozen in the wings, all but two are on track to complete the program and receive their diploma by the end of 2018.

The COHS program is a partnership between the State Library and Gail-Cengage University. The \$2,200 priced program is offered at no cost to Richmond residents with scholarships that are paid for by the California State Library and a local match from the Richmond Public Library. LEAP is seeking to raise money for 15 more scholarships.

To qualify, for all students must pass a pre-requisite course. The pre-requisite requires the participant to select a career, review the course work related to the career and pass the final test on the unit. The willingness to work through the pre-requisite is a strong indicator for long term success of this program.

Please visit the site: <http://leapcohs.causevox.com/> and share out to your friends.

## 10. Richmond Hosts Sustainable Groundwater Management Act (SGMA) Meeting

Richmond's Department of Water Resource Recovery recently hosted a meeting for stakeholders in the Sustainable Groundwater Management Act (SGMA). Signed in 2014 by Governor Brown, the Act established a framework for sustainable, local groundwater management for the first time in California history. SGMA requires eligible local agencies overlying certain basins to form Groundwater Sustainability Agencies (GSAs). GSAs are required to develop Groundwater Sustainability Plans (GSP) to make basins sustainable within 20 years of implementation. Richmond lies over the East Bay Plain Subbasin (shown below).

The groundwater beneath the East Bay is an important local resource, and the East Bay Municipal Utility District (EBMUD) is stepping up to act as its steward. The City of Richmond and other communities that receive water from EBMUD are supporting them in this effort. Learn more about local SGMA activities [here](#).

## 11. Government Alliance on Race and Equity (GARE)

The Government Alliance on Race and Equity (GARE) is a national network of government agencies working to achieve racial equity and advance opportunities for all. Across the country, governmental jurisdictions are:

- Making a commitment to achieving racial equity
- Focusing on the power and influence of their own institutions, and
- Working in partnership with others.

The City of Richmond is an active participant in this program.

This past week, the GARE team hosted a lunch to gather interested Richmond employees in a comfortable and safe space to introduce the topic of advancing racial

equity in our City. The GARE Team wishes to thank all who attended for their valuable input and participation.

## **12. West Contra Costa County Household Hazardous Waste Facility Now Open on Wednesdays**

The West County Household Hazardous Waste Facility, located at 101 Pittsburg Road in Richmond, is expanding its hours, and is now open on Wednesdays from 9:00 AM to 4:00 PM (see all available hours below).
