5. **City Manager Chronicles**

Below are some of the topics for meetings that I attended during the past week in the hope that it provides an idea of the many issues we deal with routinely.

Meetings and events of note during this week included:

- I participated in a Development and Disposition Agreement (DDA) kickoff meeting with City staff and legal counsel to discuss the structure of a forthcoming DDA with Winehaven Legacy LLC, a wholly owned subsidiary of JNII LLC (SunCal/the Developer) for the development of Point Molate. We discussed interdepartmental logistics and coordination, external coordination with SunCal and consultants, and timing issues to meet the entitlement deadline of April 2020 in the Upstream settlement agreement. Even though we are still within the Developer's 60 days Due Diligence Period and far from entering into a DDA, the meeting was important to start shaping the DDA, and identifying all the terms for the development of the project, and the eventual transfer of the property to SunCal. During the Exclusive Negotiating Period (180 days, with two 30 days extension options) we will be engaging exclusively with SunCal to define the project and the terms of a DDA.

- I met with the Executive Director of Richmond Promise (RP) (<https://richmondpromise.org/>) to discuss RP Board related matters including staffing, fundraising, board recruitment, and financial logistics.
- Met with representatives of the Council of Industries (COI) to provide them an update on development projects going on in the City, the City budget and adoption schedule, and upcoming City events. I was also invited to attend a COI sponsored luncheon to hear an update from East Bay Municipal Utility District Director regarding water supply, environmental protection and infrastructure programs.
- Had multiple meetings with staff to review the City budget and explore ways to balance the current \$7.5 million deficit, and to provide direction regarding the structure and schedule of future budget presentations to the City Council.
- Today, I participated with City staff and consultants in a presentation to the rating agency Standard and Poor's (S&P) regarding the Lease Revenue Refunding Bonds for Point Potrero and the Civic Center. The City team attending the presentation included the City's Financial Advisor, Bond Counsel, and Lead Underwriters of the bonds: Stifel, Nicolaus & Co. and RBC Capital Markets. We presented to S&P staff, the strength of the City's economy and tax base, the City's improved financial metrics, and stability of the City's revenues and long term financial outlook to support the issuance of the bonds. After analyzing all the information presented, next month S&P is expected to provide a credit rating for the bonds.

Friendly reminder: Tomorrow, May 18, will be the Taste of Richmond event.

The event will be at Riggers Loft Wine Company: 1325 Canal Blvd. Richmond, CA 94804 from 2:00 pm to 6:00 p.m.

Enjoy delicious food and beverages from Richmond restaurants, caterers, wine and craft beer producers, all while soaking in spectacular sweeping views of the Bay, the City of San Francisco skyline, and Richmond's treasured shoreline!

Permit Search

Search By:

The available search criteria for permits are;

- Permit Number
- Description of work
- Site Address

- Parcel Number (APN)
- Permit Type
- Permit Subtype

The available modifiers for each criteria are;

- Contains
- Equals
- At Least
- At Most
- Begins With

The last field is where you enter the values for the criteria you have chosen. One thing to be aware of is that this search engine looks for an exact match so entering less is often better than entering more information. For example, if you chose Site Address as the criteria do not enter the suffix. COR Connect is connected to the TRAKiT system database. TRAKiT is the City's Community Development system and is the system used for issuing permits.

For permit search the most useful criteria is Site Address and the most useful modifier is Begins with. I would start by using these options and entering the address number and street name in the value field. This should bring up a list of all the permits for this address.

West Contra Costa County Express Bus Study Identifies Potential Routes and Stops for Public Review

In fall 2018, the West Contra Costa Transportation Advisory Committee (WCCTAC) asked for community input on potential additional express bus service that would connect commuters from **West Contra Costa County** to destinations in west **Berkeley, Emeryville, Oakland, and San Francisco**. The expanded express bus service would travel primarily along Interstate 80, to help reduce congestion along this busy corridor and improve direct connections to job centers.

WCCTAC incorporated public feedback and the results of a travel market analysis of existing commute trends to generate potential express bus stop locations. To determine preferred route(s) for implementation, WCCTAC wants input from all potential riders on their preferred bus stop locations. The ultimate express bus route(s) will be designed to serve the greatest number of riders with a minimal amount of pick-up and drop-off locations.

El Estudio de Autobuses Exprés del Oeste de Contra Costa Identifica Rutas y Paradas Potenciales para su Revisión Pública

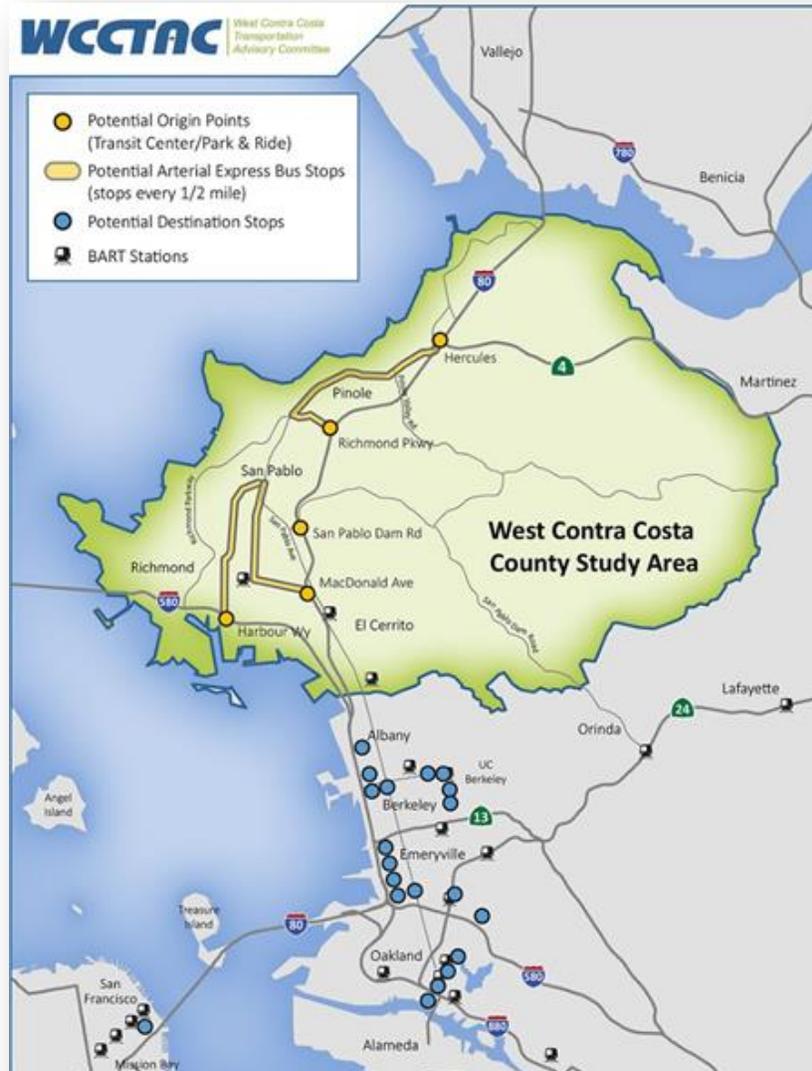

En el otoño de 2018, el Comité Asesor de Transporte del Oeste de Contra Costa (WCCTAC, por sus siglas en inglés) solicitó la opinión de la comunidad sobre un posible servicio adicional de autobús exprés que conectaría a los pasajeros del oeste del **Condado de Contra Costa** con destinos en **Berkeley, Emeryville, Oakland y San Francisco**. El servicio expandido de autobuses exprés transitaría principalmente a lo largo del I-80 para ayudar a reducir la congestión en este corredor y mejorar las conexiones directas a los centros de trabajo.

WCCTAC incorporó la opinión pública y los resultados de un análisis del mercado de las tendencias de viaje existentes para generar las posibles ubicaciones de las paradas. Para determinar la(s) ruta(s) preferida(s) a implementar, WCCTAC desea saber las ubicaciones de las paradas preferidas de todos los pasajeros potenciales. La ruta (o rutas) final se diseñarán con el fin de brindar servicio a la mayor cantidad de pasajeros posible con un número mínimo de paradas.

San Pablo Avenue Corridor Project: Please provide your input!

The San Pablo Avenue Corridor Project seeks to develop a long-term vision and near-term improvements for San Pablo Avenue that will allow it to function better and be safer for people who walk, bike, drive, and take the bus. To provide input, go to the "Provide Your Input" tab on this page for the [SURVEY](#) and/or attend a workshop.

The San Pablo Avenue Corridor

San Pablo Avenue is the heart of a critical travel corridor that carries tens of thousands of people every day and connects multiple communities to job and activity centers. The corridor provides north-south connections throughout the Inner East Bay. San Pablo Avenue:

- Carries local, rapid and express buses;
- Includes high-activity pedestrian areas and commercial districts;
- Is a bicycle route in many local jurisdiction plans;
- Serves as a reliever route for freeway traffic during incidents on I-80.

Jurisdictions are concentrating growth along the corridor, with several higher-density, mixed-use developments recently completed and numerous others under consideration.

Project Approach

Alameda CTC is currently developing a long term vision for the corridor and identifying short-term projects to improve the safety and experience of all users. The project spans two counties; the Contra Costa County Transportation Authority and the West Contra Costa Transportation Advisory Committee have contributed funding to the initial phase of analysis.

It is a multi-year effort that includes seven cities along the 12-mile-long corridor (Oakland, Emeryville, Berkeley, Albany, El Cerrito, Richmond and San Pablo), Caltrans, and AC Transit. The project is taking a detailed look at what can fit within the existing roadway and what the trade-offs are between different types of improvements. It is looking to support current and future businesses and residents along the corridor to ensure we keep up with the number of people who will live in the East Bay in the coming years.

For questions on the project, email sanpabloave@alamedactc.org. Please check the project website for latest information: www.alamedaCTC.org/sanpabloave.
