

My name is Anthony Creer

I am a Terminal Operator for a bulk storage company here in Richmond.

Richmond is a city rich in history, culture and opportunity. I am concerned however, that we have not been able to share in the prosperity and economic vitality that other cities of the same caliber are currently enjoying.

I've remained in Richmond because I believe in our awesome, historic coastal city. However, I also believe that our city infrastructure has not kept up with the speed of business and that change is necessary to evolve our city into all it can be!

I am committed to modernizing our city government. We can increase city revenue by becoming a more business-friendly city. With more business comes more jobs. We can also do more to turn the tide on violence through stronger relationships with our schools and community services.

I'm not afraid to fight for the issues I believe in. I am pursuing the position of city council member because I have a vision for a thriving city, one where people would happily want to live, work and play.

I'm in Richmond to stay. I'd like to see my grandchildren grow up here and I stand ready to help lead our city into a bright prosperous future for current residents and those to come.
