

Jael Myrick

I have a solid record of experience and action as your councilmember and I have not backed away from tough decisions. As the newest member of the council, I have been able to bridge the divide in our community and our council and work on behalf of the people of Richmond to protect our community and support working families.

I will continue working to:

Increase public safety

Increase investment in our youth

Recruit good paying jobs

I grew up here and graduated from Kennedy High School. My mother was a teacher in the Richmond schools. I succeed because I had the support of my family and my community. Too often, young people who do not have this support give up on their future and turn to anti-social activities like gangs and drugs. This is why I used my position on the council to force Chevron to fund a \$35 million program so that any Richmond graduate can go to college or a trade school.

Since joining the council, I am pleased to have:

Voted to raise the minimum wage

Worked to attract new businesses downtown

Worked with our police commission to reduce random gunfire in Richmond

There is more work to do to better our economy and improve public safety. I would appreciate your vote to continue to work hard for you. Email me at [jaelpmyrick@gmail.com](mailto:jaelpmyrick@gmail.com) with questions.
