

Gayle McLaughlin
Mayor, City of Richmond

Richmond is better now. During my 10 years on the council (8 years as your Mayor) with all segments of the community working together, we've come so far. Richmond is rising from a history of scarcity and despair. We have gained national attention as a community courageous enough to define its own destiny.

Your vote will keep our momentum and our progress moving forward:

- Homicides are down 66%; property crimes are down. Let's continue reducing all crimes with our community-based policing and prevention programs.
- We have compelled Chevron to be a more responsible and responsive neighbor, and to pay its fair share. We are making sure Chevron upgrades and repairs its refinery to make it as clean and safe as it can be.
- We've renovated many of our parks. We installed the most solar per person in the Bay Area. Residents say they are more satisfied with city services. Let's make our neighborhoods even stronger and more livable by fixing our streets, and helping struggling homeowners to avoid foreclosure.

Not a single corporate dollar finances my campaigns. I am beholden to no one except Richmond families. Powerful special interests may fight us every step of the way, but our community stands tall. We in TEAM RICHMOND will be bold and innovative to create prosperity, peace and health for every person who lives in our city.

With your vote, we will continue building a better Richmond!
