

DAVE SCHOENTHAL

Occupation: Local Businessman, Professor of Speech Communication, Community Advocate, Board Member- Richmond Chamber of Commerce, Past President -Point Richmond Neighborhood Council

Age 50

My education and vocation emphasize collaborative solutions and advocacy with multiple degrees in Speech Communication. As a Professor, I taught students how to better communicate and speak effectively. Our family has lived in Richmond for 18 years, I became a community volunteer to raise money for my daughter's elementary school. I have served as President of the Point Richmond Business Association, President of Washington Elementary Dad's Club as well as Chair of the Picnic in the Point Fundraiser. Raising over \$100,000 for great local nonprofits like The Mindful Life Project, Washington Elementary PTA, Richmond Swims, PRAM and Let's Grow Richmond as well as donating money to the Milo Foundation in honor of slain teenager Nico Martinez. As President of the Point Richmond Neighborhood Council, we worked on key issues, such as parking, housing, neighborhood clean-up and donating food to the Champion Kennedy High Football Team. I have supported community representation for our children's education as well as participating in the visioning process of Point Molate. I have also served as Board Member on the Richmond Chamber of Commerce in support of small businesses and neighborhood transformation, focused on the opportunity for residents to have jobs where they live and work. I believe serving as a Richmond City Council Member is not an opportunity to push ideology, but to be in service to the residents of Richmond, by ensuring that core city services are provided, to create a vibrant city for all to enjoy. I ask for your support
