MITIGATION RATE NOTES										
The mitigation rates above are average "billing levels," and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.										
These average mitigation rates were determined by itemizing costs for a typical run (from the time a fire apparatus leaves the station until it returns to the station) and are based on the actual costs, using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance) and department's "actual personnel expense." The actual personnel expense includes costs such as total salary & benefits.

NOTES With the new Measure J funding allocation voted on by WCCTAC, the City of Richmond could be getting more funding. If there is a substantial amount of funding, it would be used to provide later, after hours, and weekend service which has been a request by the community. The proposed farebox fee would prepare Paratransit in the event there is more funding.
