SUMMARY OF ANIMAL ACTIVITIES AND ACTIONS

For the Period: **7/1/2021 - 6/1/2022**
RICHMOND

Activity Response Times

Agency Response Goals

Priority 1 - 2 hours:

Emergency calls which require immediate response due to severe injury, imminent threat to public safety or to animal involved.

Priority 2 - 12 hours:

Requests for service that have serious need for attention but are not posing an immediate threat to animal or public safety.

Priority 3 - 24 hours:

Calls that require a response by the next business day, based on a lack of threat to both the animal and public.

Priority 4 - 72 hours:

Requests for service that do not require exigency in our response and contain no threat to public safety or to the animal's well-being.

Priority 5 - 120 hours:

Calls that are often self-initiated activities or considered follow-ups on current investigations, noise complaints, license follow up and basic ordinance

The "Target Compliance" represents the percentage of activities that have met our goal. The N/I, which stands for "Not Included", represents the percentage of records with insufficient data to calculate response times. The "Response Time" median, average, minimum and maximum times are derived from first response only.

RICHMOND

STATS for RABIES

From 07/01/2021 to 06/30/2022

RICHMOND

Number of Rabies Lab Tests with a Comparison to the Same Period Last Year

Note: if the prior year does not shown, it means that there were no animals tested for Rabies in the prior year in the same time period (same applies to the year selected).
Note 2: UNSAT (Unsatisfactory result) means that the specimen was not good enough to produce a definite answer. This result is treated the same way as POSITIVE for Rabies.
Note 3: If there is no positive outcome column that appears on this report, that means there were no positive outcomes during the reporting period.
