

**Richmond Public Library - Gender Neutral Restroom Ballot (36 responses)**

1/25/2024

**I would like to see multi-stall Gender Neutral Restrooms and I would use them (23)**      **I would not feel comfortable using a Gender Neutral Multi-stall restroom. (8)**

**If not, What would make you more likeley to comfortably use a gender neutral restroom? Comment below:**

	<b>I would like to see multi-stall Gender Neutral Restrooms and I would use them (23)</b>	<b>I would not feel comfortable using a Gender Neutral Multi-stall restroom. (8)</b>	<b>If not, What would make you more likeley to comfortably use a gender neutral restroom? Comment below:</b>
1	X		Providing that there would be at least one signal-unit restroom too

4	X		I think regardless of this survey, we must always keep the trans community in mind - even if they're unable to attend and say they will use gender-neutral bathrooms. This is a library for the 21st century so we must always adapt with changing gender dynamics.
5			Both - smaller sq footage gender neutral 4/5 stalls and 2 gender specific smaller stalls - 1 person stall with sink.
6			I would like to see both. Handwashing outside of the toilet area or separated a little away from where entering toilet stalls and more than one exit and entrance to toilets area and safety/monitoring concerns considered.
7			Undecided. I'm not sure I'd feel comfortable as a woman sharing multi-stall gender neutral restrooms, because I've never used one. I like Plan A.
8			I would like to see some combination of gender neutral and gender specific with open handwashing area used by both.
9	X		
10			Open to gender neutral with wash hand area outside of the restroom space, other side of wall.
11	X		
12	X		Note - how about both - a men's, a women's and an everyone
13	X

17		X	
18	X		More bathrooms are always better. More soundproof stalls
19	X		
20	X		
21	X		
22	X		I suggest they be labeled "Humans" rather than some current jargon.
23	X		
24		X	
25		X	Starbucks on Marina Way has two gender neutral with a sink in between. But with so many stalls it seems awkward to have mens/women/gender neutral. People flowing in and out and everywhere. Do we need so many stalls? I'd be more comfortable with a straight corridor, no L shapes.
26		X	Why can't you have mostly gender specific and one gender neutral?
27		X	
28		X	Why can't it be one for a man, one for a woman and another for neutral?
29		X	
30		X	I would prefer both gender neutral and single gender bathrooms.
