  - Webinar ID: 831 1145 5351 ● Passcode: 47836713

- The City of Richmond received numerous complaints regarding the increased number of smoke shops and tobacco retailers. Many of these retailers are operating without the required license and several of those with licenses were found to have violations.
- In April 2024, City Council adopted an urgency ordinance to establish a temporary moratorium on all new tobacco retailers. The moratorium protects the public health, safety, and welfare of residents, while the City works with residents and stakeholders to address tobacco retailer licensing and enforcement.
- Your participation in the upcoming community workshop will help shape key City policies around tobacco retail licensing and enforcement.
